Strokes of Genius

V.C.'s Gallery

Hello, Goodbye.

We're leaving: just about 160 of us, each armed with a diploma, crease-holding pants, and a million dreams. Every one of us has his own way of saying goodbye. Some are leaving reluctantly, wanting to catch one more eyeful of that sturdy old red brick at 5400 Cartier. Some are running out into the world, never to look back. But we are all what we are because we were here.

These have been astounding days of experience, of newness, of trial and error and error and error. Each of us graduates has followed our own path. We've all seen and heard and done different things as we have grown. There is a different story behind each grad photo you see and every write-up you read. But for six hours a day, five days a week, four weeks a month, ten months a year for five years (yes, it's been even longer for the 12 Year Men), we've all come here.

Here has been played out the saga of precocious little boys who couldn't wait to grow up and, having grown up, yearn for the simplicity of yesterday. Here, countless late slips have been issued and contended (the score: Administration - 1,528/Students - 2), countless lunches have been traded and eaten, countless car rides have been begged for and given, countless conversations have come and gone, countless pages of homework have been eaten by dogs. We've all led our own lives, but we have also been with each other for some of the most important years of our lives. Among this class is an understanding, a sense of brotherhood that binds all of our divergent lives together. You can call it what you like: 'unity', 'harmony', 'oneness', 'friendship'. I happen to believe that those words don't quite describe it. I call it 'going through heaven and hell and everything in between together, and surviving'. The bond created among the students of this graduating class could only have been forged by learning to be men and growing up alongside one another, knowing that each one of us has gone through our own personal triumphs and agonizing defeats. And so we respect one another in an indescribable way for having shared in the ritual of growing up which only the strong can survive. And we're not finished yet. We won't stop growing up 'till the day we die. But that's for later.

You know, it's funny how our grad photos look so different from our grade eight pictures. Sometimes you can't even recognize your own face. But we're not all that different now than we were then. We've still got questions and we're still looking for people to answer them. Wish us luck.

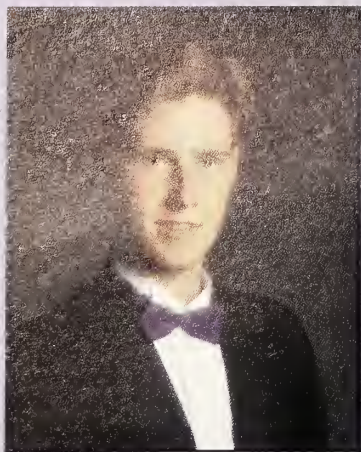

It won't be easy to leave the school and each other; everything has become so familiar. But then again, whining has never been our style. We leave with uncertainty and yet ambition, in diversity and yet unity, with anticipation and yet nostalgia. We leave in brotherhood. We leave in Christ. Yes, we're leaving. We're not all best friends. But we are Irish and we are strong. And woe to him who underestimates the meaning of that.

Doug Abernethy

10 years ago a young, shy boy (who had really neat hair may I add) by the name of Doug, entered the facility of Vancouver College. 10 years later he left. On the way Doug picked up some math skills and some friends. FM's: Summers at Crescent Beach, Mr. Davenport's class, when my cat relieved itself (I got to miss some school). Least FM: grade 5 (tough year). Thanks to CH AR FL AT and many more. I hope my fellow classmates grow up to be rather neat adults. "Happiness is just a flamin' Moe away." The Simpsons.

Doug Andrews

Five years ago, Doug came with many to VC to become better educated. That education came from both sides of "The Wall" which will hopefully help him towards his sought-after future (whatever that is). FM's: News year's, The Beach, Partying with LGD, being "Drawn to the Rhythm" of 27 concerts (especially Pantera, Pink Floyd, Page/Plant, and The Cult). Doug would like to thank all his friends (especially Andrew & Colin), his parents and his older siblings for everything. "Know me broken by my master. Teach thee on child of love hereafter."

AIC 13:1,2

Paul Andonian

Paul is not Arabic, Paul is not Albanian, Paul is not Greek, Paul is not Mexican, Paul is not Italian, Paul is not Spanish, Paul is not Russian, Paul is not Jewish, Paul is not Romanian, and Paul is not Hungarian. Paul is Armenian! Armenian! Paul arrived at V.C. in grade 7 and has remained here despite the famed "Three hour tour" from Maple Ridge. V.C. has left Paul with many memories which are too numerous to mention and may be incriminating. How does it feel being the first Armenian to graduate from V.C.? It feels pretty good. Peace to those who knew from the start. Shouts to all my 108 people.

Neil Colin Armstrong

Egghead has been at Vancouver College for five years. FM's include Mr. Devenport's Accounting 11 class, reminiscing about Simpson's, Sub trips, Subway, and sub-level arcade, and his most favorite memory will be the day he graduates from VC. Egg would like to thank AT, CJ, MC, AJ, MD, CH, RP, AR, EW, and all others. "I dislike Smarties."

Travis Gordon Andreas Bader

Although my stay here was short, I was still able to learn a lot from V.C. I would like to thank my Family and friends for helping me through life, but especially my parents for putting up with me. Two things I've learned are: "That which does not kill you makes you stronger, guts will get you so far but in the end you're going to have to resort to your brain." Keep the memories, but don't let them ruin your life, you'll lose tomorrow if you do that. Only fools constantly look back. Live for the moment cherish the past, but strive for the future.

Prabhjit S. Bal

He came. He saw. He Conquered. PS Bal arrived at VC in the black 747, and is leaving in the BEEMER. He thanks God, his parents, grandparents, coaches and teachers. Big thanks to teammates (both sports), Aids for opening the BUNKER, the INDIANS (leave me alone), various others (sure), Hypnosis Herms and you. FM: Snapping/Tackling for IRISH FOOTBALL, shooting hooks for BASKETBALL, Kamloops '93 '95, Double Domes, Houston/Vegas '95, RA Long '95, SMU Tourneys. Future Plans: Study Law, make Millions. "What if there were no sports? Where would I be? Who would I be? Would I still be your HERO?" NO FEAR.

Melvin Gabriel Costa Barcelon

The one lady I give my thanks is to my mother Bessie. I would be lost without her everlasting support. She forced me into a Catholic environment, eventually leading me across the bridge to Vancouver College. To my father Albert and brothers Jerome and Robert I also thank for putting up with the dumb things I do. Good luck to all of my friends and staff at V.C., without whom I would probably be found with a pile of empty bottles in a ditch in Richmond. "Made weak by time and fate, but strong in will/To strive, to seek, to find, and not to yield"

- Lord Alfred Tennyson

James Bejar

James has wandered in and out of the halls of Vancouver College for five years. Excellent use of cliché. His aspirations of world peace & equality surpass every achievable means in doing so. Countless efforts to conform James have lead to utter defeat on the grounds of his extraordinary power and humility. Mardis soirs, tous les mardis soirs avec de bons copains bien aimes. His future can not and will not be forecasted, because Franchement, James doesn't know. FM: Journalism (where's the glue?). He would like to thank his parents for all their loving care and inspiration.

Andrew Blaney

The past twelve years of my life have been spent roaming the halls of VC. During this time I have come to know many of the finer points of being human. My days here were a time of unforgettable memories. FM's include: lunchtime missions to 7-11, BTM, '95 Long Beach mission with all Richmond crew (present and past), J.C.'s mindless bass, and all star Physics Posse. Special hellos and goodbyes to everyone from Cartier St. and anyone else who took the time to say hello. Ominous thank-you to those that helped to mold my person into what you see in this picture. "I chased the charmed, but I don't want them anymore."

Jamie Boreham

Arriving early in his grade eight year, Jamie has been the franchise player for all the Fighting I teams for the past five years. He has spent time in the football, basketball, track, and wrestling programs, and excelled in all of them. He would like to thank all his team-mates for their support over the years. FM's include all football championships and track awards. "I am a Blue-Chipper".

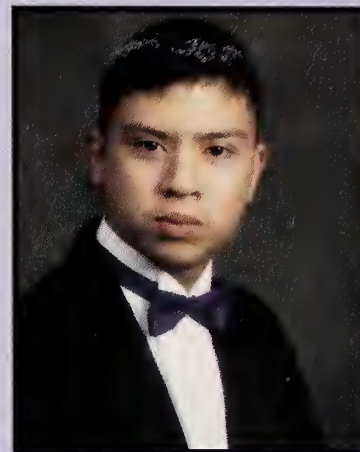

Harry Charilaos Brastianos

Harry has been here since Grade 9 where he became one of the most well known people in V.C. SCREECH. But now he is finally leaving and an era of being VC's own Samuel Powers. His teachers, who had patience with him. His friends, for being with him all these years. FM's include Reid Island trip, X-country races, soccer games, Mr. Freire's, Accili's, And Langille's classes. Would like to say Goodbye to SG, CL, JY, AW. "It's all right 'cause you're saved by the bell"

Ryle Anthony Brual

Ryle was probably absent when he began his search for truth; The centre in all things. He thanks God for the pain of JNB HB & VC: his motivation. Much love to mom, dad & brother for quenching his thirsts and providing light. "Though I know I'll never lose affection for people & things that went before, I know I'll often stop & think about them in my life I love them all" (Beatles). Thanks for all the great times. He believes there is one destiny; his life will be spent fulfilling a fruitful legacy. Till next we meet again, good luck & farewell. "I am The Way, Truth and The Light" May this force be with you!

He would also like to extend thanks to the faculty and staff who have helped him on his way to graduation. It's been a great ride, but he's glad its over.

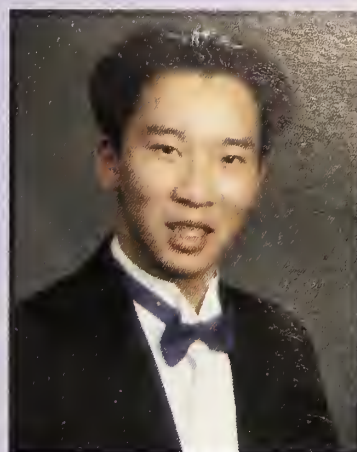

Andrew David Chan

6 years at VC has flown by. 36 different teachers, 2 parents, 1 brother, and countless friends (especially RS and BMW) have made VC a comfortable and unforgettable school. Although VC has no girls, many moments worth treasuring have been found: Pro-D days, Holidays, 1 hour lunches, Big 2, Encounter 14, Special Events (Grad-Dad Diner, etc.) and Bomberman. With high school completed, a journey has ended, but an even bigger one will begin soon: university. "It's not the journey that's difficult, but taking the first step is."

Franklin J. Chau

Life is what you make of it, not what you want it to be. My years at VC have contained many ups and downs. I could not have climbed this mountain without the support of my loving family, I thank you. "No matter how hard it gets, stick your chest out, keep your head up and handle it." - 2PAC

Joseph Clancy

Joseph has been skewing bell curves and eating chicken burgers at Vancouver College since grade seven. His preferred athletic pursuit is that of the spectator. Joe wasn't entirely clear on the concept of the dress code, but it didn't really matter because he was more often than not out of class. He's never been limited to any particular grade, but instead has chosen to take classes at a fine selection of grade levels. Thanks to loving parents, caring teachers, and God who supported me all the way through; the Encounter experience lives on. Memorable moments include dousing the flame, yearbook camp, Accili's biology field trip, des gaufres, cycling the walkathon, UBC (in general). "It's so deep it's meaningless."

Scott Freeland

Golf is a science, a study of a lifetime, in which one may exhaust oneself. It is a contest, a duel, a call for courage, skill, strategy, and self-control. It is a test of temper, a trial of honor, and reveals character. It affords a chance to play the man and act the gentleman. It means going into God's out-of-doors, getting close to nature, a sweeping away of mental cobwebs. It is a cure for care, an antidote for worries. It includes companionship with friends, opportunities for courtesy, kindness, and generosity to an opponent. My six years at VC have been like a game of golf.

Paul Alexander Friesen

Since grade 8 Paul has enjoyed his years at VC. He thanks his family, friends, and teachers for their support and encouragement throughout the years. His FM's include: playing basketball, trips to Houston, and I erase, "Blogendz-Plogendz-Drogendz," the parties with the foursome (DH, TB, JR), "holidays" (with the mouse), and the daily bus rides with the 311 crew. Frank Henville

I won't sing long elegies to drowsy indifference in blatant brick classrooms. I'd rather sketch a Zen liturgy of macabre days. Days when Stefanie had paintbrushes in her eyes. Days when Of Perception and Public House created the new folkcore. Yet the melancholy beauty is not yet completely revealed: I'm still "standing on a hill in my mountain of dreams." Other than SB and PH, my loves were Led Zeppelin, Doors, Floyd, Hemingway, Tolkien, Kerouac, Chieftains, Tzu, Ireland. FM's: Town Pump, Sev, the Tsawwassen Clique. We're all Desolation Angels but Heaven hides in concrete sepulchres. Amen and I love you.

As his friends will tell you, Jeff was never considered shy. Jeff gave his opinions most of the time and never gave a second thought about his vocality. It was fun playing for the Irish. Thanks to the seniors for making Jeff's time at VC memorable. Remember, no-one is ever a victim, everyone has a choice and everyone must choose. Peace out to Tommy Hill. A TOUCH OF CLASS NEVER HURT! Thanks for the memories Vancouver College.

Christopher Jacoby

When going to Vancouver College for twelve years, I can't help but say nice things about it. School helps us to receive the highest mark possible, doing the smallest amount of work. The growing standard of education forces students to work harder than ever, students that don't make it get lost in the shuffle for first place. This is the true tragedy of school. The suprising upside is discovering the sanctuary of first block spare. If escape of school is sports, then for that I thank rowing. I would like to thank all the previous coaches, all the fellow rowers, and all my library and television friends.

Michael Liutkus

There are no temples or shrines among us save those of nature. Being children of nature, we are intensely poetical. We would deem it sacrilege to build a house for the One who may be met face to face in the mysterious, shadowy aisles of the primeval forest, or on the sunlight bosom of virgin prairies, upon dizzy spires and pinnacles of naked rock, and in the vast jeweled vault of the night sky! We're sitting here ready to negotiate and you've already given up your stuff, I'm still a mystery to you, but I know exactly where you're coming from. If you would've grabbed an eggrole and shoved down, I'd say to myself, "This fool, he's carrying on like he aint got a care in the world, and who knows, maybe he don't. Frane A. B. Sisko

I have enjoyed my time at V.C. Since I was a child, I had been told that Vancouver College is one of the premier schools in B.C. I know that the education that I have received here, will help me become a success both academically and socially. Being brought up as a Croatian Catholic I appreciate the Christian atmosphere at the school. I have been prepared to become a part of the outside world, and to be strong when there is a problem. I know that next year, I will not be protected in a school atmosphere, but I know that V.C. has prepared me for this. My time is up at Vancouver College, but I shall always remember my friends and teachers. The graduates must remember that, "Gotta live my life just the way I please."

Alex Tang

Page once said, "We're always looking . . . " "The whole search is for the unknown." Pondering over what is of me, I undertake an eternal quest to find myself. Recollecting my childhood memories. I remember that I shone like the sun. No longer will that innocence be present in me, for the time when nothing else matters has passed. Now burdened by the choices of tomorrow, the moment becomes difficult to savour. As tempting as it may seem to care no more, one must continue to follow the passions that exist within. Cause no one knows who you really are, sometimes not even yourself.

Thanks to everyone that helped me through my tough years of study, all 2 of you. I like to thank my family for their support and my friends for their encouragement and peer pressure. I'm glad to say through the years some of my enemies are now some of my good friends. Great times playing b-ball and picking up girls at the mall with my friends I have met during my stay. Good idea: eating in the caf; Bad idea: buying food from the caf.

Brian P.T. Yang

1993 was a year of change for me as I left Seaquam to become part of the IRISH family. I left behind friends and fond memories in hopes of gaining more of each. As I near the end of my quest as a high school student, I can't help but look back and see all the great times I truly had. I thank God for my family whose members have been a welcomed pain in the side. I love you. Thanks also go out to all my friends, you guys are the best! Peace Larry, remember the "south melon hunt" of '95. These past five years have been a heck of a struggle, yet they remain merely hills in the mountain-scape of life.

Thomas Yim

Master of human destinies am I. Fame, love, and fortune on my footsteps wait, Cities and fields I walk; I penetrate Deserts and seas remote, and, passing by Hovel, and mart, and palace, soon or late I knock unbidden, once at every gate! If sleeping, wake - if feasting, rise before I turn away. It is the hour of fate, And they who follow me reach every state Mortals desire, and conquer every foe Save death; but those who doubt to hesitate, Condemned to failure, penury and woe, Seek me in vain and uselessly impore - I answer not, and I return no more.

Only a precious few have had the luck of living the Irish lifestyle for twelve irreplaceable years. We, as the Twelve Year Men, have been fortunate by doing so. Vancouver College has been such a part of our lives that it is hard to accept, after all this time, we must now leave.

What makes leaving so difficult is that Vancouver College has been a home for us. Within its' sheltering walls, we have prayed, eaten and learned, together. On O'Hagan Field, we learned how to run, pass and play as a team. Furthermore, with the guidance of our teachers and the Christian Brothers, we have gained tremendous strength within our hearts, minds and deep within our souls. We have truly been blessed by having received these awesome gifts.

With these gifts, the Twelve Year Men carry on a traditional bond between them. This intangible bond has been created and developed over our twelve years spent together. It can be referred to as a brotherhood, but one that is unique, one that, "no one else may ever come to understand." 1990 Collegian Another intangible quality, that every student of Vancouver College can relate to, is our pride. Without a doubt, the Irish Pride is strong within the hallways of our honored school. The accomplishments of all the students is what makes us proud. Academically, we achieve honor and witness pure brilliance, releasing incredibly bright minds into the world. We excel in sports, consistently winning championships, and producing some of the finest athletes for the future. And together, we are able to share our creativity with others and the entire Vancouver College Community.

This year, fifteen students, known as the Twelve Year Men, will join the graduating class of Vancouver College. Andrew, Taylor, Mike, Pierre, Jason, Vince, Chris, Liam, Jeff, Pat, Stephen, Roger, Geoff, Ryan and Eugene will miss their beloved school. It was at Vancouver College that they arrived as eager young lads in 1985 and will graduate, this June, as men, a little taller, older and much more wise. Even though we will be leaving our one and only school, the Irish Spirit will live in us, forever.

"As for man, his days are as grass: as a flower of the field, so he flourisheth.

For the wind passeth over it, and it is gone; and the place thereof shall know it no more.

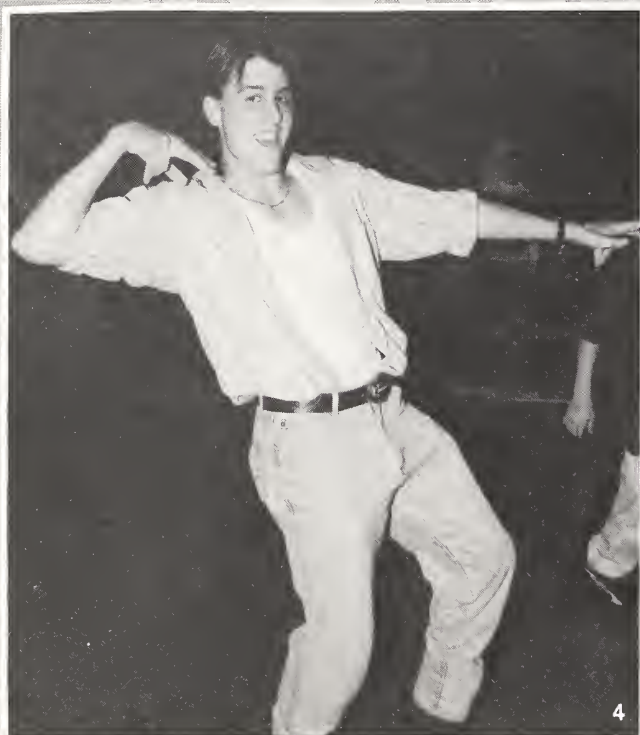

Psalms 103: 15-16

On behalf of the Twelve Year Men, I would like to thank Br. Kieran J. Murphy, all of our past Principals and The Christian Brothers. A special thanks to all of our teachers, the staff and the entire Vancouver College Community. Most importantly, we would like to extend a genuine thanks to all of our families and loved ones.

To the Class of '96, the Twelve Year Men bid you the most tender farewells and wish you the very best of luck!

Collegian
Dedication

We dedicate the 1996 Collegian to the Vancouver College Parent Association. Their hard work and commitment to providing opportunities for students and their families to interact results in successful events such as the Mayfair and the auction dinner. The Association has, over the years, shaped the closely knit community of students, parents, staff, and alumni, into a cohesive whole. The student body of Vancouver College gives their warmest thanks to the Parents Association for their boundless efforts and contributions to every part of student life.

The world of the Collegian came to experience several milestones this year: the passing of the old yearbook room, the coming of the "Staff Ladies' Lounge," and the return of three of the Collegian's greatest allies, namely myself, Joseph Clancy and Mrs. Charland.

The old yearbook room gave us much: plenty of storage space, room to lounge, advanced technology (circa 1980), the refreshing harmonics/ earthquakes from the band room, and of course, ventilation. Thankfully, the yearbook crew is a hardy bunch and we have adapted to our new surroundings, treating it as our own. The pipes running through the ceiling give the room a certain unique charm, heat is never a problem due to the radiator that spans one of the walls, and the private editor's room definitely sets it apart.

Joe and I have been a part of the Collegian since Grade 10, and with the guidance of Mrs. Charland, we have become a formidable team, fearless in the face of deadlines and only show weakness when food comes into the scene. We have 10 years of experience between the three of us, and it comes in handy when we bring to you yet another error-free yearbook. < cough > A last-minute deadline meeting at my house is just one example of the dedication that we have put forth, and we know that our *creative* efforts, combined with others', will not have been in vain.

I would like to thank the many people who have invested their time and toiled their labours into making this one of the best books ever: Joe, Mrs. Charland, Br. Duff, Russ, Kendrick, Chris, supplies from the College Corner, the three official "Yearbook mobiles" (Lexus, BMW, Nishiki) and anyone else I might have missed. With the passing of the March deadline, we passed the torch of succession to Lloyd Min, next year's editor-in-chief, but remember, I'll be back. Then again . . . Enjoy the book and watch out for 1997!

Messages from the Editors

Photographed by Lawrence Chan

Well, it's been a spiffy few years working on the Collegian, but I guess that all good things have to come to an end. There hasn't really been anything better than running the operation otherwise known as the perpetual excuse to avoid class, and it's time to say farewell. Through these enjoyable adventures, I've creatively learned a few lessons that might pass as being useful for the future. Deadlines are a fabrication of some mystical place in Winnipeg; in reality, they don't exist. There has never been a piece of computer equipment which can't be revived and made useful. A little cheer goes a long way. To really enjoy the high school experience, one must have an office, phone, mailbox, and, above all, connections. CHEM 160 is the best lounge in the Lower Mainland. Real Men cycle faster than most folks can drive. Happy little caffeine molecules make for a productive, yet sometimes grumpy editor. An office isn't necessarily better just because it lacks rodents. And, aesthetically disturbing layouts and typography are rapidly contributing to the decline of modern

culture of modern North American civilization.

Of course, I won't disappear without issuing many well-deserved thanks to the caring people that made everything come out in one piece. Pat Charland, for the inspiring smile; Lawrence, for gluing things together even as they seemed destined to disintegrate; Jeff and Kendrick, for coming by and doing stuff even when not called upon; the grade eleven crew, for occasionally being productive; and my dear folks, for keeping dinner warm all those deadline-induced late evenings. To all the 130-odd grads and 70-odd staff members not mentioned: it wouldn't have been the same without the friendship and understanding from each of you. I seem to be going all misty-eyed on you, but it's just been a wonderful time here at Vancouver College, and I can't hide that it'll be sad to say goodbye.

So long, and enjoy.

Each year as I sit down to pen this message from the moderator, the Varsity Basketball team is in the throes of the provincial championships. Somehow, this exercise becomes more potent due to the aura of excitement which permeates the school halls. Vancouver College is at its creative best when tested to its limits and this season always exemplifies this for me. This year, "Creativity" is our theme, and we are celebrating all aspects of V.C. student as creator. Whether a student is involved in athletics or the arts, it is his creativity that sets him apart. Our students are gifted in a variety of pursuits and we salute them all.

The Collegian editors-in-chief, Joseph Clancy and Lawrence Chan are perfect examples of the creative genius at work. Whether it be the organization of layout, photography, cover design or copy, it is all handled with aplomb. It is their versatility which makes them such outstanding editors. This year I am blessed with a dynamite team all around. Brother Duff and his staff have dedicated an unlimited number of hours to this book and he and his editors are to be congratulated on an outstanding job. I would like to thank the entire staff of the Collegian from copy, layout, business, photography and art for a tremendous year and yearbook.

In closing, I would like to especially thank my dear friends Joseph and Lawrence. They have given me their hearts and souls for the past two years as editors and I will miss them more than I can say. If it is my place to do so, I would like to dedicate this yearbook to them; after all, this is their creation.

This will be the sixth year during which I have been in charge of the photography in the Collegian. For each of the previous books there have been a number of students who expressed an interest in either taking the actual pictures and or working in the darkroom. A great amount of guided practice is usually required in order to become skilled in either of these areas. From those who initially expressed an interest in acquiring the necessary skills in order to produce good pictures, a core group always emerged that was able to and or willing to devote the time necessary to reach a level of expertise in order to help the layout staff produce an excellent yearbook like the Collegian. As in the past, a core group emerged during the '95-'96 school year, and it has given me a great deal of personal satisfaction to have worked with the young men who I have helped produce the picture throughout this large yearbook. In particular, I would like to mention Richard Hasinger, Chris Nicola, Kelly Cheung, and Eugene Cheung. I would also like to say that Mrs. Pat Charland has been an excellent support to myself, as well as the whole photography staff, especially as we approached one of our deadlines I owe many thanks to her, her layout staff, and those involved with me in the photography. Hopefully, I will be able to continue my association with the Collegian in the future.

Whew! We're glad that's over! We're really surprised at all the work we had to put in on this year's yearbook. The amount of time we spent after school (yes, we don't just work during class) was incredible, not to mention coming on a Sunday to catch up on a deadline. Both of us have now developed special breathing abilities to compensate for the lack of oxygen and incredible amounts of chemicals in the air of the darkroom. Still, we persevered and pushed through the constant deadlines which, when finished (usually late), another was already upon us. We quickly grasped the processes and skills behind taking and developing photos. We also spent many weekends and after school hours out at basket and football games taking countless rolls of film for the sports pages with Carlos Francisco and Jon Lee fighting off the numerous people who wanted to use our cameras and the power mad referees. Thanks go out to Br. Duff, who taught us how to take and develop pictures (over and over again), and for pushing us to meet the deadlines with comments like "Make sure you do a good job," "If we don't get this done we're dead!" and "Remember to clean the negatives!" Thank you to Mrs. Charland, who let us catch up on deadlines during her art class and who provided motivation to get the job done. Special thanks to the yearbook editors Joe and Lawrence, who put in many hours after school and many weekends to bring you another incredible yearbook. Lawrence, who took pictures of Encounter XIV (blame him for the picture of the guy in the shower) and Joseph who was never without his coffee mug bearing the inspirational face of George Costanza (sometimes we think he doesn't sleep). We would also like to thank Carlos Francisco, who worked with us the whole year and never ceased to have an intellectual comment for us during long days in the darkroom. Thank you to Kelly 96 of the Canucks who has recently been sent back to the farm team. Very special thanks to Niko Nelova and his crew, who have the record for saying "Take a picture of me!" the most times. Finally, we would like to thank our good friend Hank Noronha, who was always saying he could do better than us, and to him, we would just like to say, "So what do you think about that?"

Our lives are brilliant collages of sights and sounds; people and experiences; happiness and sorrow. These creative images of life are most radiant and vivid in our minds during the years of adolescence. We are the stars that shine the brightest in the night sky, full of beauty and unexplored potential. We are the embodiment of jubilant energy and spirit. With all this creative energy bursting from out of the minds of Vancouver College's high school students, students need a reservoir into which they are able to release their talents. This is a problem easily solved by Vancouver College's administration. They believe, as students do, in creativity being the key factor in expressing one's personality.

Creativity opens our minds into a whole new dimension where anything can happen with unexpected results. In Mrs. Charland's art class, art is the creative pool from which every student gets a thirst quenching drink of visual imagination. The many students who enter art with doubts or fears, get a chance to leave with a broadened picture of their creative minds, Mrs. Charland states, "I've had new students enter my room, shy struggling kids, and leave as artistic geniuses!" Mrs. Charland teaches young boys to put their "mind's eye" on display for everyone to see and admire; to create an image of our very souls on the canvas.

The presence of creativity, to many in this school, is thought to be the reason Vancouver College is such a strong producer of creative talents. It is the artistic spirit of this school that inspires the students to become more conscientious in the importance of creativity.

The inner soul is awakened within the students and brings them to a higher level of thinking. Lawrence Chew, a saxophonist in the school band, sees his music as, "... a door to a magical world ... it makes this world seem even more beautiful than it naturally is. Music is not heard only through our ears, but also through our hearts." It's in these activities that students get their chance to show their true colors.

Seniors participate in numerous activities for the school that take creative thought to excel in. In all the different sports, clubs, pep rallies, and art programs, creativity is essential to awaken the students' spirit to improve and express himself. In a varsity football game, the quarterback must come up with skillfully chosen plays to win; while, the president of the student council must think of innovative ideas everyday to meet the demands of the student body. The activities of the school help define the pride of Vancouver College's well deserved reputation - school that has the best and most energized pep rallies, with the most stunning art displays, and inspirational leadership portrayals.

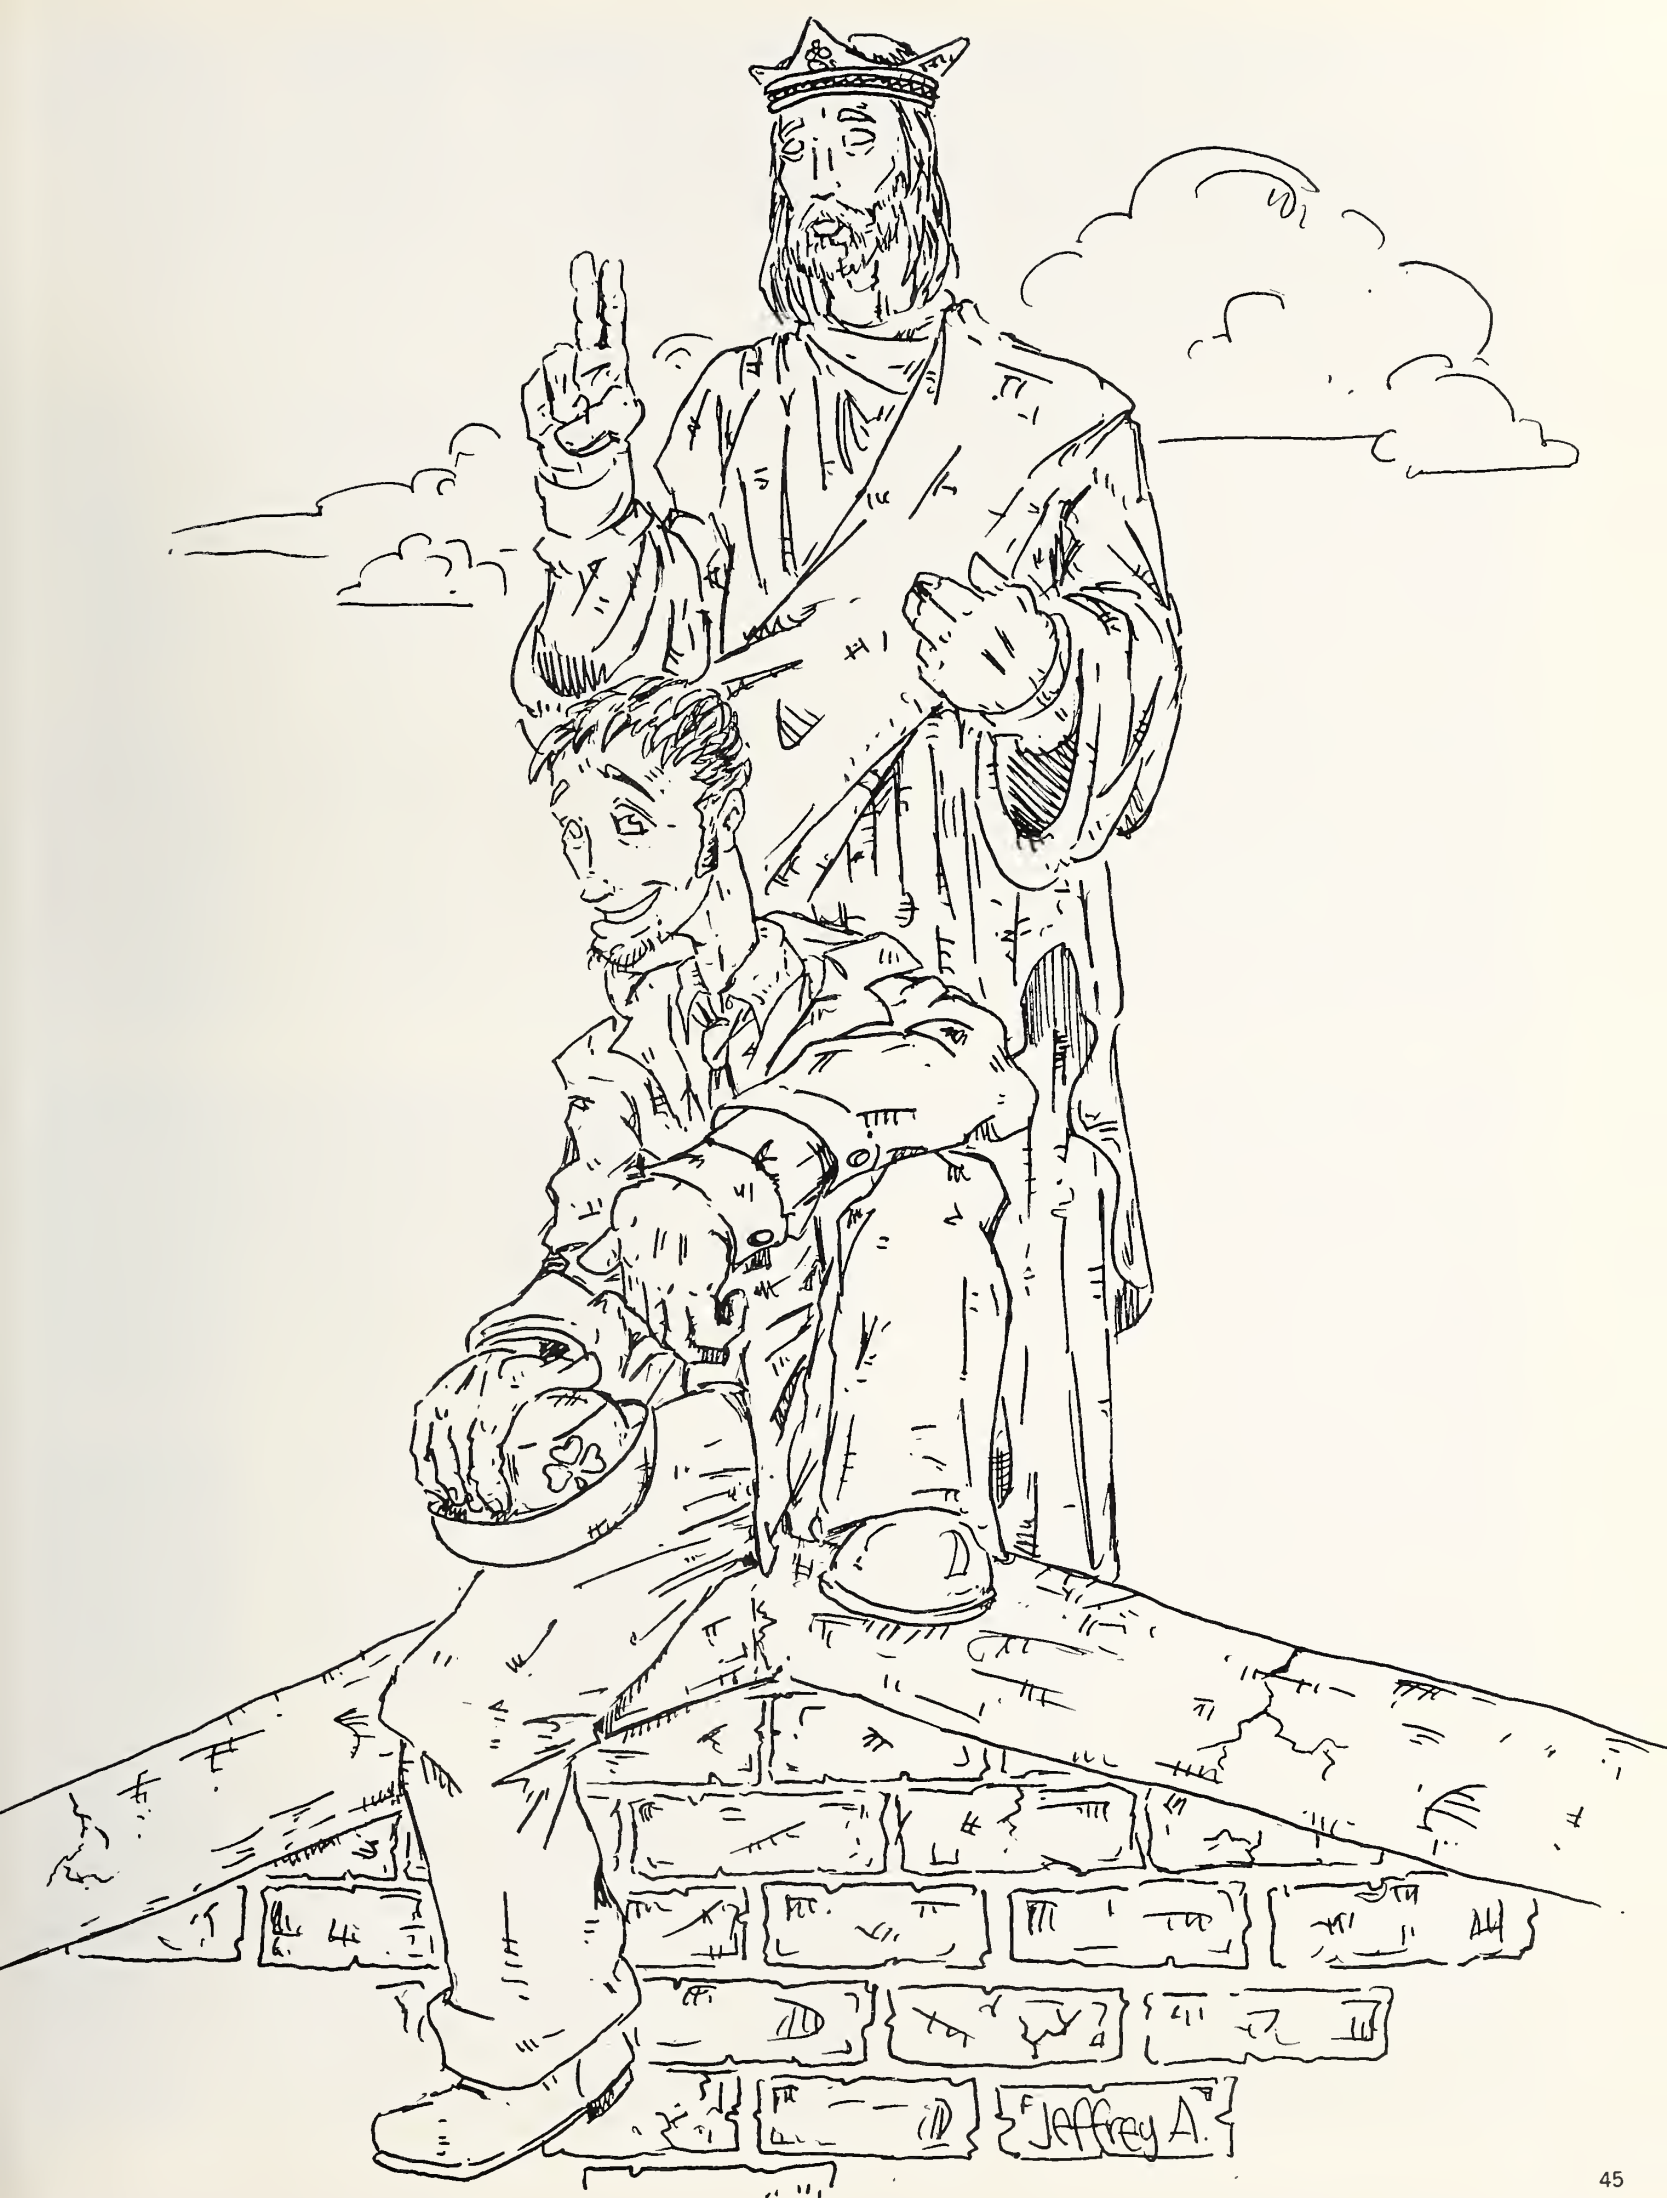

The power to create is undoubtedly one of the most important factors making us human. Creativity is in all of us, we all just find a way to express it differently. The thoughts, ideas, and feelings about the world we live in, show the things that mean the most to each of us. This shows how unique each individual is. In this way, creativity truly is the essence of living.

High School

Grade Eleven

Alone in his room, a young boy takes a deck of cards and begins to build. While gazing through a half-opened window, he decides he will build his house of cards upon a foundation made from the suit of hearts. The clubs and spades, he softly whispers to himself, will be the second and third layers. Meticulously, he flicks each card and stacks them, one by one, against each other. The diamond cards -- the last suit -- are reserved for the top. He glares at the finished house and contemplates his achievement. Suddenly, a gush of wind enters the room and levels the cards into disarray. Unfocussed, the boy digs into the debris, searching for any configurations -- any sign that his house might still be salvaged. He finds the layer of hearts -- the foundation -- still present in its raw form. From the sight of the bottom layer and the memories of the house still fresh in his mind, the boy regains hope. And begins to build -- again.

All Vancouver College students are like the young boy. We too are building a structure not with cards, but with experiences.

The house is our own character, each layer representing a vital component to our personality. The hearts are symbolic of love and faith, something so basic to our form that without it, we would not survive. The suit of clubs -- the clover leaf as the emblem -- evokes school spirit and a sense of pride, the Fighting Irish way. Defined as a "great spirit",

the spades symbolize the driving force within us -- our aspirations, ambitions and dreams. And the diamonds, what do they represent? Why do they occupy the highest level? The suit of diamonds circumscribes our success. When all the other components provide a strong basis, we have the opportunity to plant many diamonds and to succeed in our many endeavours.

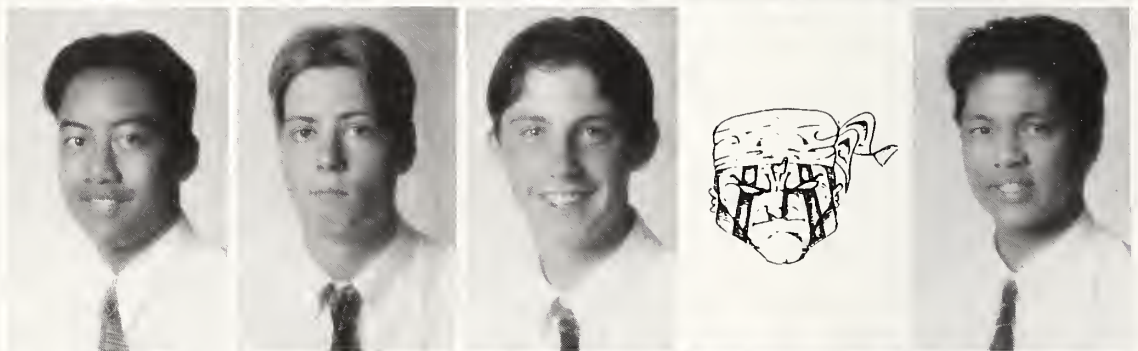

We learn not to let the wind tear us down. Instead we take each fall and use it to rebuild ourselves into stronger and more complete individuals. Together, as grade elevens, we must build our houses, slowly and carefully, with confidence -- and hope.

Grade 10

Grade ten, the new adventure of our schooling at Vancouver College. We are almost finished high school where many uncertainties still face us in our everyday life – most of us wake up in the morning, wondering what the day holds for us. For some it brings joy and fun, when we get a good test score or each class has been shortened by 15 minutes. For others life is hard and there are some things one just does not want to do. Senior school is the time we must abandon our middle school mentality and look for new and exciting goals that await down the road.

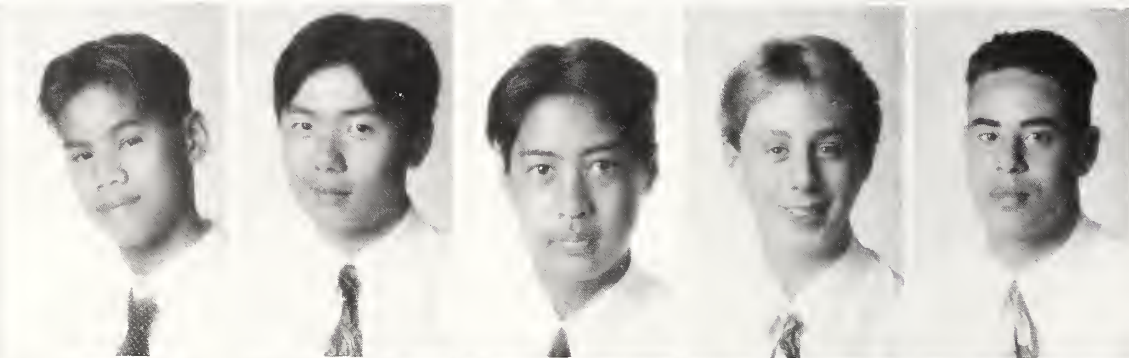

The most important things we learn in grade ten are not words in books, but the lessons of life. At this time in our lives, we learn more about ourselves and the people around us. Each person we meet during the day brings us something unique and something new to learn. Our friends and family will always be there to keep us going. They have the biggest impact on our young yet undecided lives. All these things we have learned in high school will prepare us for the harsh realities of the outside world.

It just seems like yesterday we were starting this journey in grade one. We are just two years from graduation before our lives are turned upside down by university. Doors will be open one day and then slam shut in our faces. We cannot give up, still looking forward to the next goal and objective. Grade ten is the best time in our lives and there is no way we will forget the best time of our lives. All we can do is, go where the day takes us.

Grade Nine

Attending school at Vancouver College can be a very unique and enjoyable experience. However, it can also be stressful for those of us facing the challenges of middle school. We overcame those hurdles in grade eight and have emerged as leaders of the middle school. We must continue to put away all our fears and begin to look towards the future. Grade nine has trained us to make decisions that will help dictate our future as senior students and later on as men in the work force.

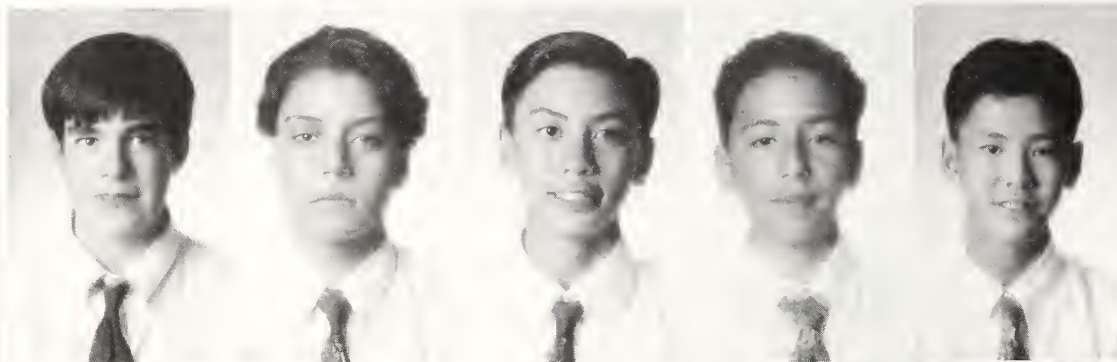

As students of Vancouver College, which is operated by the Christian Brothers, we should help the student body and keep strong the foundation of our school. It is our job to instill pride and school spirit. We can accomplish this by attending sporting events or participating in school functions, showing everyone that we are proud to be members of the Fighting Irish. If we work together and succeed in keeping the tradition of Vancouver College, we will have done our job.

As the year comes to an end, we shall take all our experiences and lessons which we have learned this year, into a new phase at Vancouver College, one where new challenges await. Farewell middle school and thanks to our principals and teachers for their dedication.

Grade Eight

Life in grade eight is like a fresh start, a new beginning where the former students merged with the new people who have transferred from other schools. It's very different from what most students expected. Teachers are more open to student opinions, and take them more seriously. The workload and responsibilities are heavier, but more fun was also added. The privilege of going to dances and other social gatherings was finally given to us.

Eighth grade is the beginning of new interests and ideas. Boy-girl relationships, the latest video games, and CD's are common topics of conversation. An eighth grade student begins to think about his future. He learns new values from the people that surround him. Eighth grade is a year filled with many activities, friends, and new experiences. It can sometimes be difficult, but most times it is fun.

Grade Seven

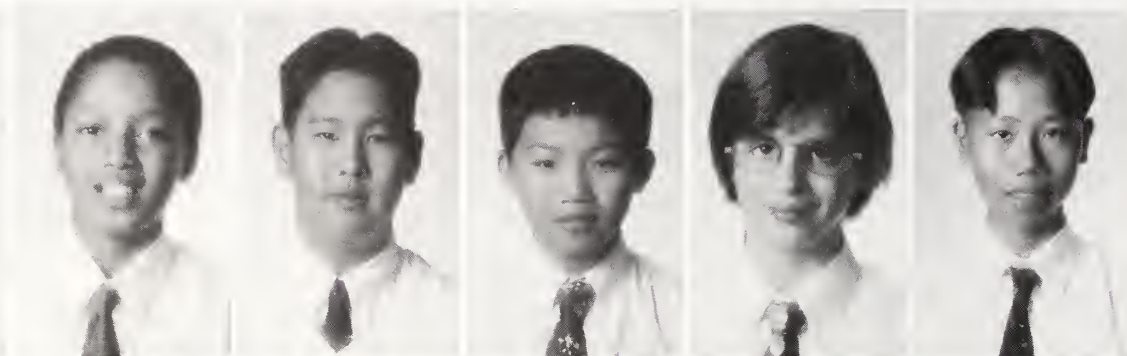

Middle School in Vancouver College is the best, especially Grade 7's. We get to attend pep rallies and do other cool stuff. We get to start behaving ourselves and become young gentlemen. Grade 7 is lots of fun. Becoming smarter than ever, we learn from our teachers, Ms. Keogh, Mr. Shimmer, Mr. Choo, Mrs. Seto, Mrs. Charland, and Mr. Olson. The thing that makes Grade 7 so special and neat is that we get to attend Outdoor School in North Vancouver. This trip will be a blast for the Grade 7's. Furthermore, you get to join the Environment club started by Ms. Keogh. Most important of all, never mess with us, Grade 7's, and our teachers, Mrs. Charland, Mr. Choo, Ms. Keogh, Mr. Olson, Mrs. Seto, and Mr. Schimmer.

Also, what could be better than to have Mr. Smigel as our best friend and our Middle school principal for Vancouver College? These Grade 7's you see on these few pages will be the graduates of Vancouver College in the year 2001. These people will be the most disciplined people from Vancouver College.

In Review

I came to V.C. when I was five years old and I have enjoyed it ever since.

In kindergarten, I learned about phonics and numbers. I started emergent writing and invented my own spelling pattern for new words such as "cmpr" for "computer". In Grade One, I wrote journals and the reading envelope program was my favorite subject. By the time I was finished Grade Two, I was reading fluently with ease and good expression. My teacher said that I had successfully completed all aspects of the program and was more than ready for Grade Three. During the following year, handwriting was introduced and I learned about Canada. We started having tests and a bit of homework.

I had an interesting year in Grade Four. We learned about Greek Mythology, Shakespeare, Michelangelo, Leonardo, Mozart, Ychaikovsky etc. We did a lot of fun things such as raising chicks and playing soccer. We also had gerbils and a fish tank in the classroom.

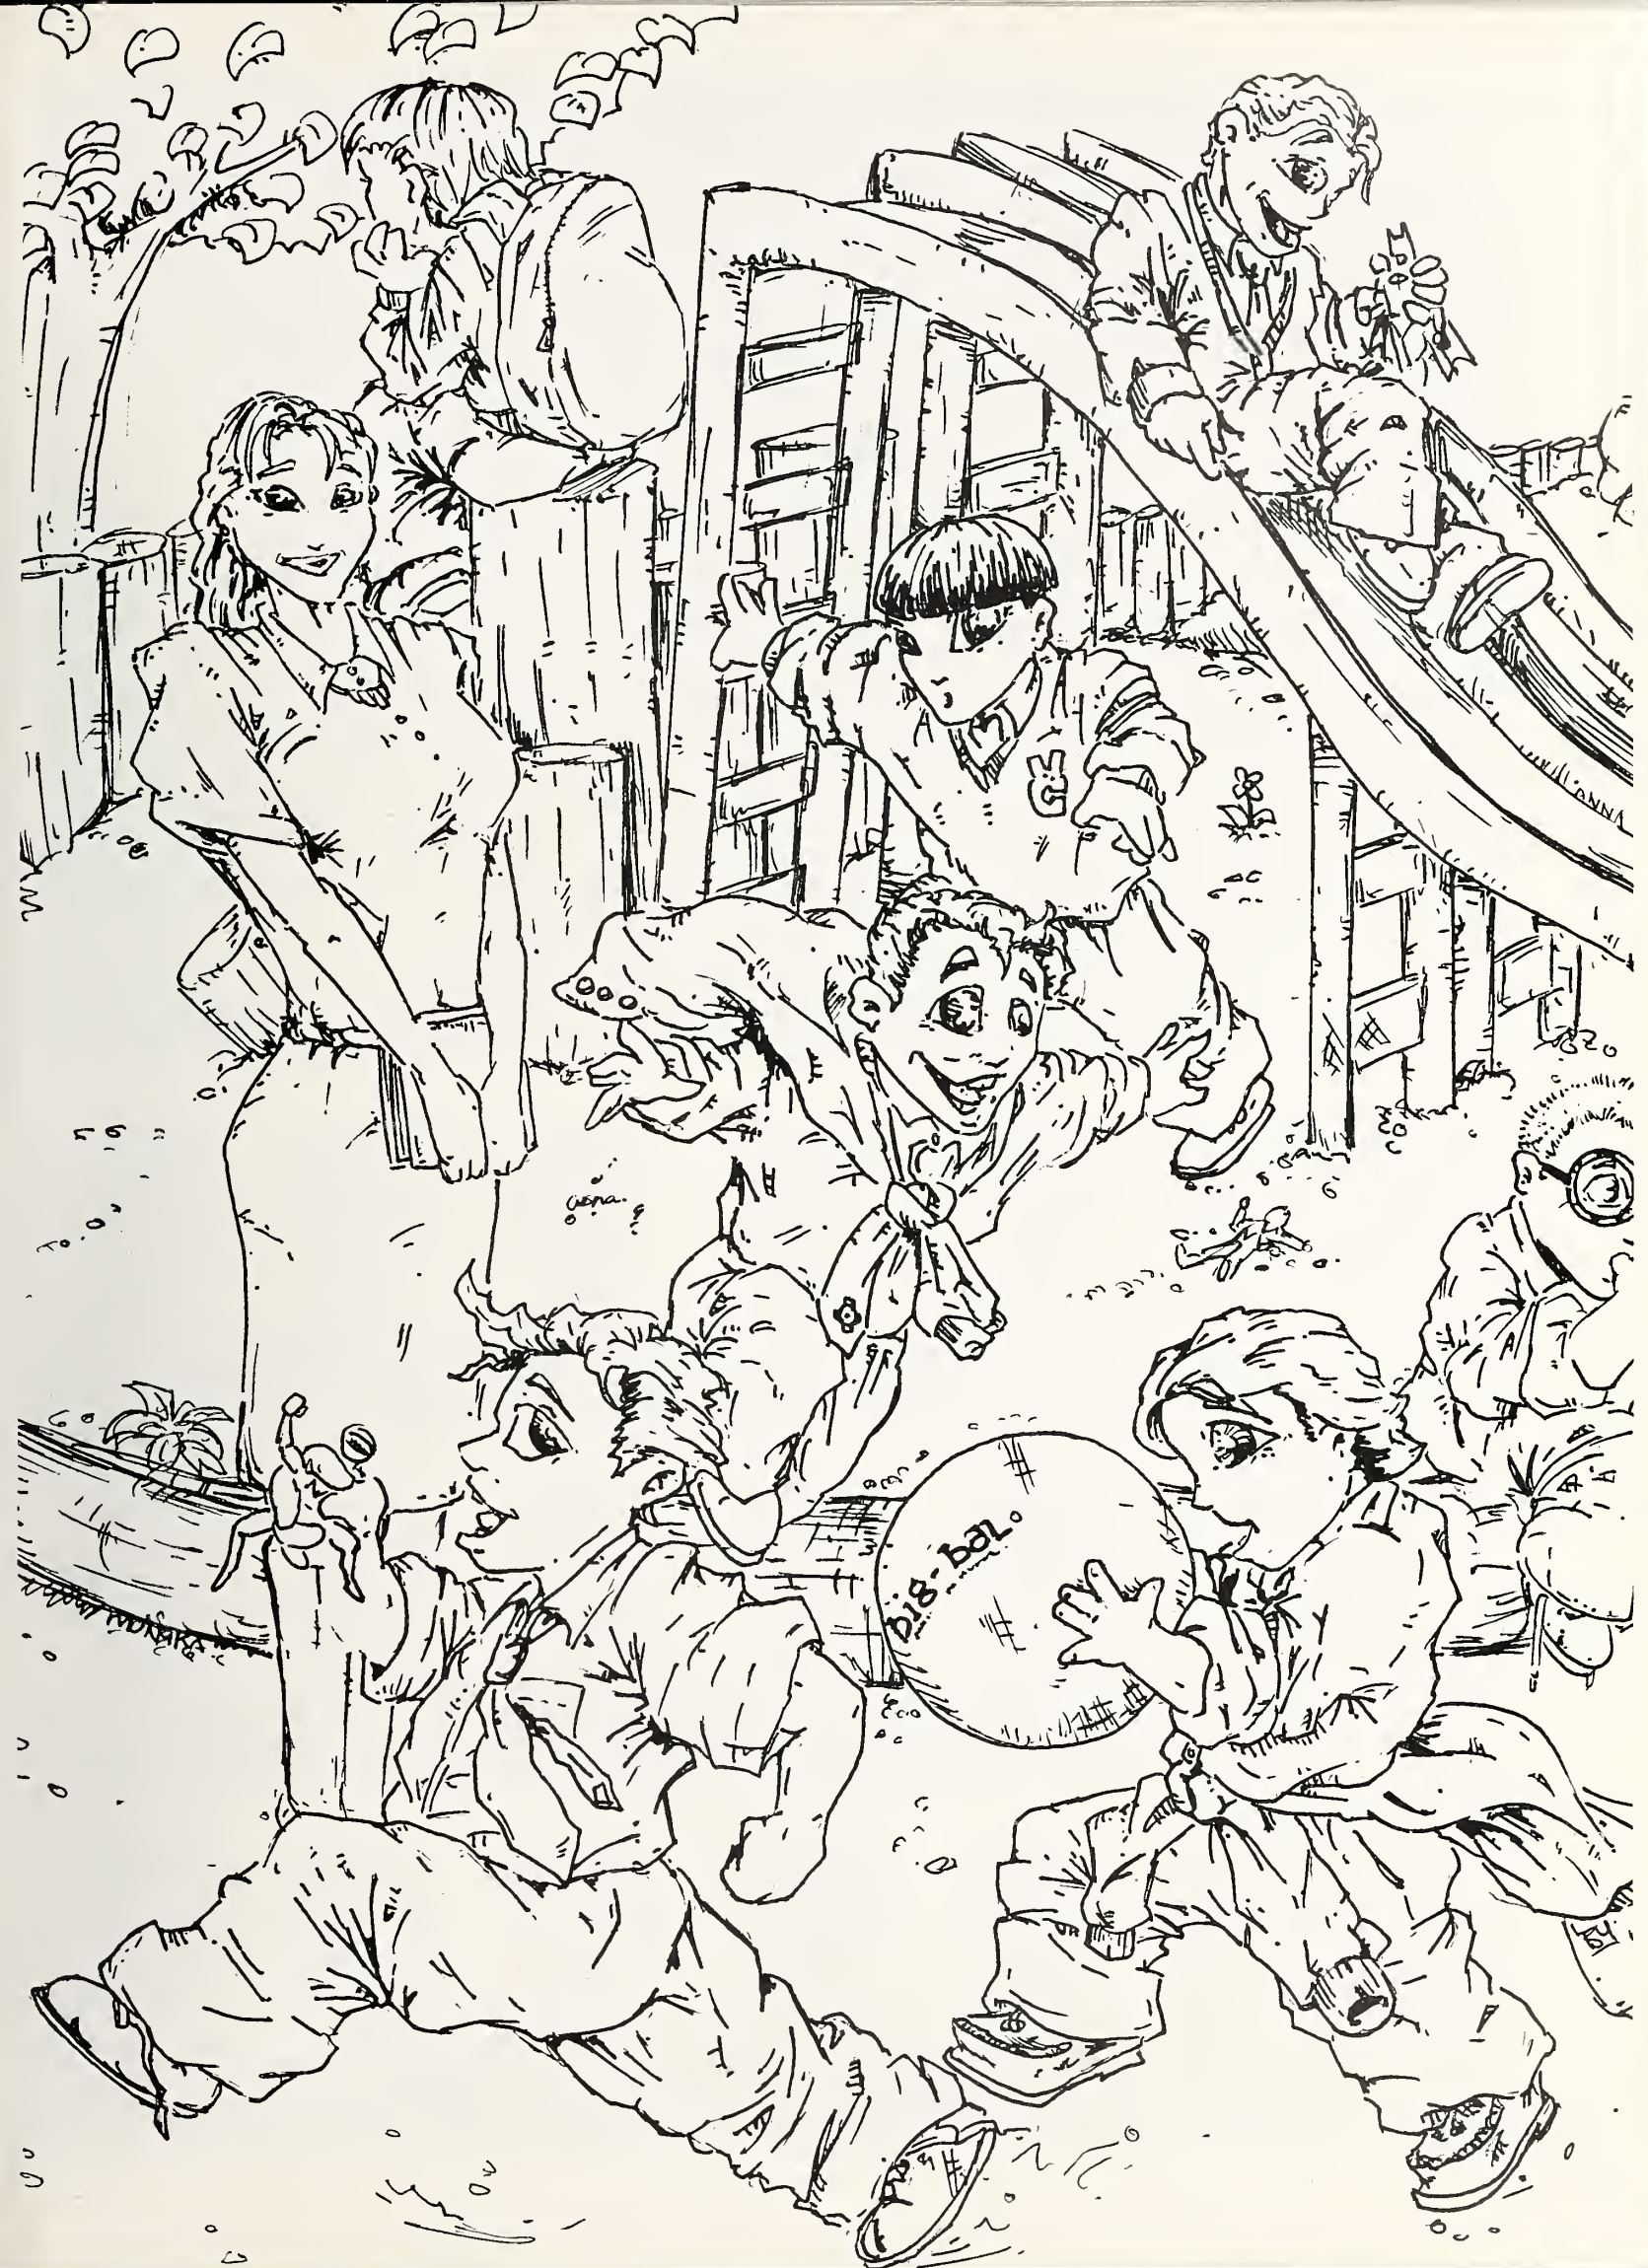

This year I am in Grade Five and I find it challenging. We have learned about decimals, current events, the human body, parts of the Mass etc. I have to work harder than before but I'm still having fun.

At the annual Walkathon, we raised the most money. As a reward for working so well as a group, we got a pizza party and saw Batman Forever. Our teacher, Ms. McRae, lets us play games such as Math Pros, and Boxcars to help us improve in math skills. During recess, the whole class plays together. Our favorite sports are soccer, squareball and football.

This is the best year I have been in so far.

Grade Six

Life in grade six is a lot of fun. Some really good reasons why it is great being in grade six: there are friendly students, nice teachers, fun activities and a fun fish club. It is very neat to study Japan. There are also some very hard tests. Unfortunately this is the last grade in the elementary. There are some neat things to do in science. It is new but good to have Mr. G. and Mr. DesLauriers teaching us this year. One very good thing about this year is that we have advisory. Some times Mr. DesLauriers gives us pop quizzes. Who ever gets the answer right he will have a draw to see if he should give the person a treat or not. Mr. DesLauriers is always trying to make us laugh and he sometimes gives us extra gym periods. It has been a great year in grade six and we know it will continue.

Grade Five

This year I am in grade five. The class teacher is Ms. MacRae. We have 29 students in the class with no new classmates. We had a lot of fun this year with Spelling B, Buzz Bang, Snap, and Box Cars. All these games make learning fun in class.

Every year the school holds a Walkathon. This year the grade five class brought in over \$4000. The goal was to get \$3100. Since we met our goal, we have three extra P.E. lessons. We also brought in the most money in the whole elementary so our class got a pizza party. I hope that we will win again next year when we are in grade six.

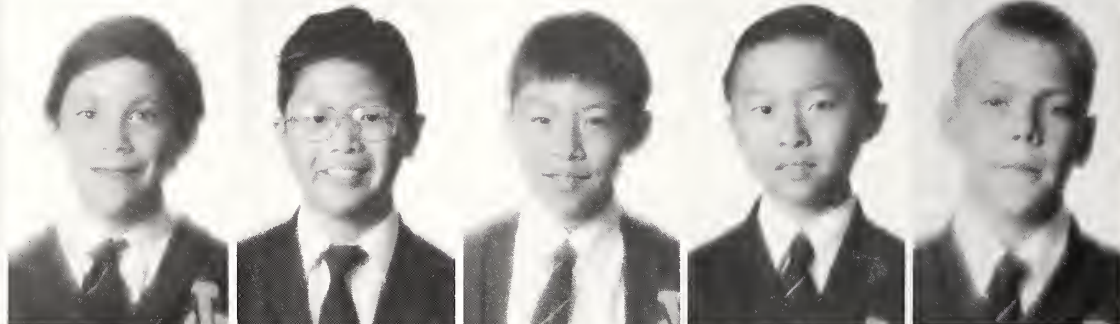

This year is the 50th anniversary of the United Nations. The whole school had a U.N. poster drawing competition to celebrate this event. No one in our class won the competition, but I still enjoyed helping to colour some little posters for the celebration.

In September, I joined the grade five volleyball team. This is the first time I had ever played volleyball but I enjoyed it very much. The teachers are great and the games are fun. So far, Grade five is enjoyable.

Grade Four

In grade four we got rabbits. We also have ants and fish. So far grade four has been very nice for me. I think that Brother Conti is very funny. At lunch we have a game called Geosafari. You have to pay fifty cents to play. We have lots of activities that we do. We have been learning about musicians for a month. We also are learning about artists like Michelangelo Buonavotti. We also have a math game a week. One is Math Olympics and the card game. When someone has marked it, he gives points out. What I like the most about grade four is at the end of the week the team with the most points gets no homework. I think that grade four is great and Brother Conti is preparing us well for grade five.

Grade Three

I like grade three because it feels like home to me. My teacher is Ms. S. Mackinnon, and she has really good ideas. We have a token system, and then an auction every month. In grade three we laugh a lot. In grade three you don't even get homework on the weekends! Wow! Grade three is the best class to be in. Even if we are bad, our teacher forgives us. I hope when you are in grade three you will have a teacher like mine!

Staff members

Best - we love you all

Staff

Every year when we put together the pages of the Collegian, I am struck by the variety of activities available to the students of V.C. We have sports for the athletically inclined, organizations for the civically minded and more and more every year for the artistically motivated.

All of these activities are a special source of pride for more than just the students at V.C. The people you will see on the next few pages put their hearts and souls into more than just their subject areas. For every activity which interests you, at least one staff member is volunteering their time, expertise and heart-strings so that you may grow and excel in all areas of school life.

Take a moment this year to thank your coaches, moderators, leaders and staff representatives. You can be sure you will be thanking them as you look back at Collegian '96 in years to come.

Principal's Message

Greetings to all members of the Vancouver College community:
Once again I am pleased to have the opportunity to address you through this fine medium.

We have reached the end of another year in the history of Vancouver College. As we approach our 75th anniversary it is always good to reflect on the achievements of individuals and the community. A yearbook is a great way for each of us to remember the 1995-96 school year and to reflect on how we have used our talents and abilities to further the vision of the school.

At the beginning of the year I spoke to the students about using the letter "A" as a guide for the year. I challenged the students to take the Aptitude which each of them brings to the school, couple it with a good Attitude and solid Application to result in an appropriate Achievement. I hope that each of us can look back on the year and feel that we have been faithful to that challenge.

To the graduates of '96 I hope that you will take the heritage of Vancouver College and make present in the community the values of a solid Catholic education. We know that you have the ability to succeed. We hope that during your years here you have been challenged to develop them to a point where you can join the ranks of the many alumni of Vancouver College who are successful in their chosen careers. Always remain faithful to the heritage that you have inherited. To those returning for the 1996-97 school year I encourage you to continue to grow in the spirit of Blessed Edmund Ignatius Rice. His total dedication to the education of the young has resulted in a history of Catholic education in the four corners of the world. I challenge you to make his vision your own.

Finally to my fellow staff members I thank you for your cooperation in the task of Catholic education that we have been called to. I encourage you to continue to show that care and concern for your students you have shown this year.

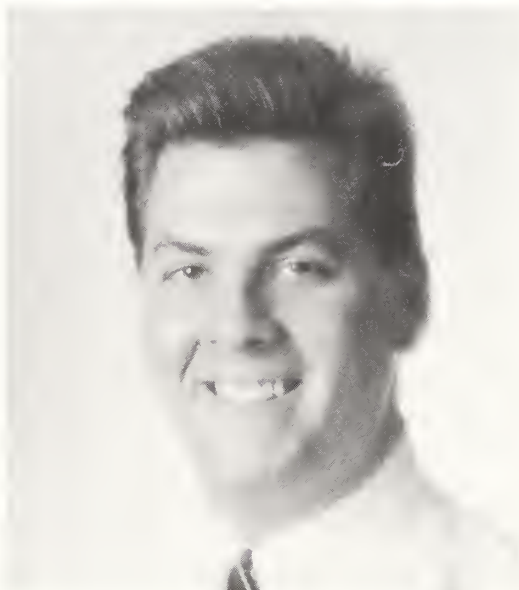

May God continue to bless all involved in the life of Vancouver College and shine His light upon us as we work to foster His kingdom and make His Son, Jesus, present to all we meet.

Br. Murphy

Martin Szetela High School Principal

Mark A. Smigel Middle School Principal

Rogér DesLauriers Elementary Principal

Creativity . . .

This year's yearbook theme of creativity seems very appropriate for our Catholic school. The ability of people to create is a quality that distinguishes us from the rest of God's creation. God has given us the privilege of being co creators with him and we constantly do so as we create our own lives and impact our world. The challenge for us as Christians is to ensure that we strive to create what is good and pure. It is my hope that this year Vancouver College has been a place which has celebrated and fostered creativity and channelled it for positive purposes in accordance with God's will. I give thanks to all the students who have used their abilities to create art, ideas, good will, and community. Seeing creativity used for the benefit of others is inspiring. Thank you for your inspiration. I wish our graduates great success in the future and to those returning next year I look forward to another year of inspiration and creativity.

Take one thousand students, blend them with seventy dedicated faculty members, add a challenging curriculum, a healthy dose of extra curricular activities, and a hint of good humour and what do you get? A healthy and active learning environment.

This year's edition of *The Collegian* brings many highlights which we can reflect on with pride. Our honour roll recipients continued to grow and reflect the hard work that is shared in the learning process by teacher and student alike. When coupled with a host of new curriculum initiatives that are born in all three segments of the school, our students experience dimensions of education that are not typical in most school communities. We can say very proudly that the results of these initiatives have been admirable.

Our athletic prowess also continued this year. Tournament championships and victories over our traditional foes definitely come to the forefront. But perhaps the most important lessons learned this year were those not found in a play-book. This year, the goals of leadership, team work, dedication, and pride took a more poignant significance in the learning process, lessons which we hope go well beyond the fields, courts, or classroom of our school.

Indeed, there is a recipe here at our school that is not shared by most communities - success. For those of you graduating this year, take this message with you and apply it to whatever path you choose to follow, for with it you can move mountains. For the rest of us returning, let's continue to add our key ingredients and make it even better in years ahead.

"One of the greatest things in this world is not so much where we are, but in what direction we are moving."

We can be proud of what we achieve at Vancouver College - in our classrooms, in our offices, and on our playing fields and stages - but achievements are not due to complacency and satisfaction with the status quo. Our program is what it is because a staff of dedicated, aspiring teachers have a common goal to do what is best for students and are always looking for a way to achieve that goal. This year, as in the past, we must concentrate on the processes that spur continuing advancement: evaluating what we have, determining what we can do to improve, and identifying what we need to make those improvements.

For our students, Vancouver College will always be a part of their lives when they leave here. They must take pride in it now and help make it a better place, day to day, through the better ways they do things, the better ways they act. Our school should be christian community where people offer strength and support to each other. It should be a community that offers personal growth to everyone; a good place to learn, to work, to be.

2. Are you sure we did this right? It doesn't look like Leonardo's
3. But I ordered a non-fat, decaf, double cappucino!?!

The '95 Varsity Football Team fought through a difficult season. Although the final outcome was not the one hoped for, all players and coaches were grateful for the opportunity to play together, again. The team had to fight through some injuries for starters, but the back-ups filled in admirably.

Although the team lacked in members, they were full of spirit and enthusiasm. The team developed such a close bond that they became a family. No matter what the situation is, whether a 45 point loss or a heart breaking 1 point loss, nothing was able to separate them.

The grade twelve players enjoyed playing with the grade elevens. We hope that they learned much from us. The grade twelves wish the best for the grade tens for the upcoming season and hope that the grade eleven players will become excellent leaders.

The junior players played a big roll in the success of the team. All of our teams have had excellent leaders. They tried to lead both by word and by action and hope the very best for the upcoming years. May the tradition continue.

The Junior Varsity Football season was definitely a learning experience for the team. At the early stages of the season, the expectations were high as there was an abundance of talented athletes participating. Ironically, the season opened with 3 straight losses. Knowing the team definitely had the potential to win the championship, the JV's were determined to prove to everyone that the team had the Irish pride and the desire to win. Success was eventually felt, not through its victories, but through the team's passion to never give up.

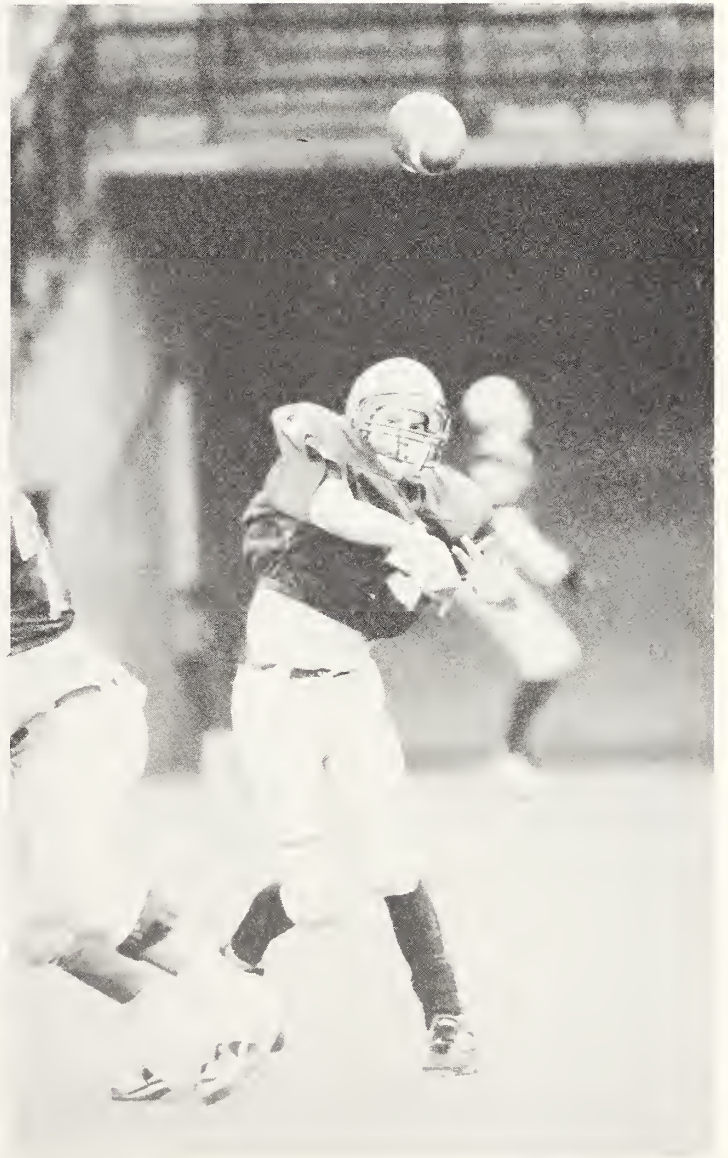

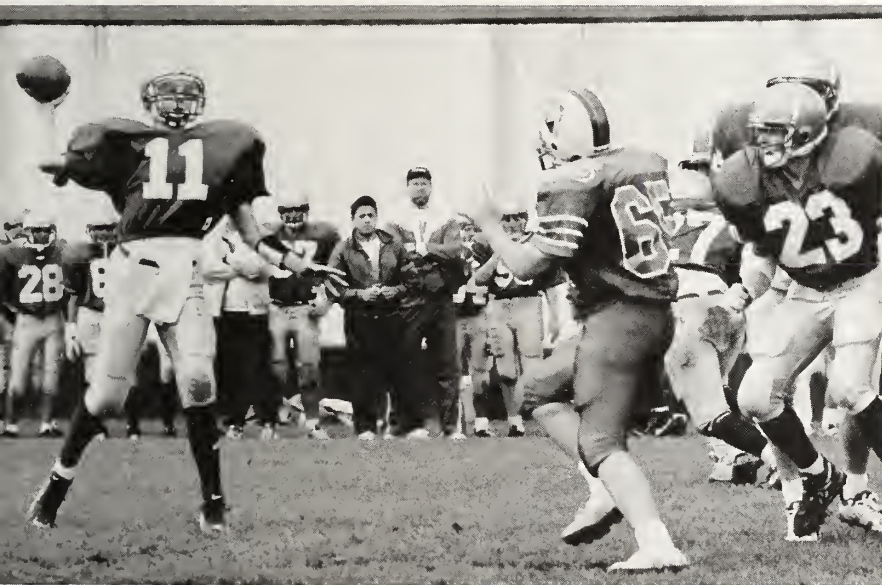

A key meeting was held to set things straight, stressing teamwork rather than individual talent. This turning point resulted in three straight wins followed by an undeserved loss to Notre Dame.

The attitude at the beginning of the playoffs was simply to forget the past. The JV's took one game at a time walking through their first round opponents, Sentinal, whom they defeated 27-0. The quarter-finals were anybody's game. With a late comeback by VC, the Irish beat Carson Graham 18-13. The confidence booster came at the semi-final game when the team shut out Mouat 13-0 (Mouat had previously upset the JV's at the beginning of the season). The Irish headed for the finals against our arch-rivals, Notre Dame. Surprisingly, the team's determination for the championship was not enough. The Irish lost a heart-breaker 21-0.

The season definitely had its ups & downs struggling for most of the season. Though they fought hard trying to endure the success of the past. Most importantly, getting to the championship game proved to be the climax of all their hard work.

The 1995-96 season began a little shaky with close victories and disappointing defeats. As the season progressed, the Irish continued along a bumpy road with it's ups and downs. Disheartening losses to top ranked MEI and second ranked Richmond High deflated moral of the struggling Irish. Slowly the Irish began to play more as a team, proving that the whole is greater than the sum of it's parts with the defeat of the Terry Fox Ravens. It seemed that the Irish had turned their season around with several straight strong victories. Hopes of another first place finish in the Emerald tournament raced through the minds of the Vancouver College players however fate turned a cruel hand to the Irish with a fifth place finish. Vowing to avenge their loss in the Emerald, the Irish led by their captains, Suneel, Ryan, and Rafie, rolled through league play with a record of 8-0. With outstanding league performance, the Irish boasted an excellent record entering into the Lower Mainland Tournament. With a growing fan support and formidable victories in the early rounds, it appeared as though the Irish could not be defeated. A fourth place performance assured the Irish as position in the 51st Annual BC. High School Boys Basketball Tournament. The familiar Irish face in the BC. Tournament set a precedent in the newly constructed GM Place. In beginning rounds the Irish faced an unknown team from the island, Victoria High School, and a powerhouse team from the valley, W.J. Mouat. An outstanding team effort by the Irish set the tone for what was yet to come as the Irish prepared the near undefeated, Richmond High Colts. The small Irish squad was not phased by the height or the ability of the Colts. A David versus Goliath battle ended with the Irish rallying to defeat the renowned Colts. Proud performances versus Terry Fox and Salmon Arm resulted in a fourth place finish for the exhausted Vancouver College team.

To the "Irish Crew,"

Rowing at College, in fact, at any school is a complex interplay of personalities, equipment, and schedules. It can often feel like a tug-of-war of conflicting desires, commitments, and loyalties.

At some point in every oarsman's (and coaches' life) he will ask himself some variation on the following question, "Why am I doing this?" The answer that he gets to that question will determine the course of his involvement in Rowing and possibly any number of activities that he will choose to involve himself in over the coming years.

As a coach I have seen many students ask themselves that question. I have been able to draw some wisdom from those observations. For what it's worth here it is.

Asking the question is not the problem though never asking it could be.

Maybe rowing is not about what you thought it was about.

The answer you get will, if examined carefully, give you a fairly accurate picture of your priorities in life.

There are no better priorities only better choices.

The choice you make will lead you to the result you get and it will be **your** result.

If gold medals were easy to acquire everyone would have one.

Rowing, like any activity, must stand for something and must mean more than a record of wins and losses. When you add up the balance sheet someday, maybe today, you will see what I mean. My wish for you is that you find yourself in the black.

As the Irish mounted for another season, Mr. Davenport prepared his soldiers to fight the good fight. With a tedious schedule in hand the Irish players had to be fit and ready. Jason Hill, Brad Bumstead and David Polisi were the front liners; their task was to score goals with infamous grace and glory, and this they did with great ease.

The midfield was led by Stefen Ferris, Mike Liutkus, and Jeff Se-cord. With their passing and defensive skills, they stopped the opponent with finesse.

The last line of defence was Harry Brastianos, John D'Alfonso and Pat Mahony. The last man back to hold the fort together was Taj Senghera. Colin Hartshorne erected his brick wall, and stopped whatever was thrown towards him.

The Irish team experienced ups and downs and finished the season way up in third place. With this spectacular finish, the Irish qualified for the playoffs for the first time in four years.

With the faithful support of the fans in full force, the Irish started its playoff run against arch-rivals St. Georges, but the luck of the Irish ran out. The short-lived playoff run ended there.

The players would like to thank Mr. Davenport for the memories and his commitment to the team, as well as the fans for their loyal support that continued throughout the season.

Cross Country

Under the fearless leadership of Coach Penn and countless hours of hardwork, the Cross Country team has once again shown the raw determination of Irish spirit. Through sun, rain and even snow the team feared nothing. The team wishes to recognize its tremendous success, placing third in its division, by acknowledging their undoubted captain Sasha Diakow and the even stronger runners under his wings: Chris Harrison, Alex Inglis, Mike Sweeney, Chuck Chang and Dan O'Flaherty. With a continuation of upcoming strong runners such as Ryan Hayden and Simon Gellard, the team strives for higher results next year. "No matter who you have beaten or who has defeated you, if you don't surpass yourself you have already lost."

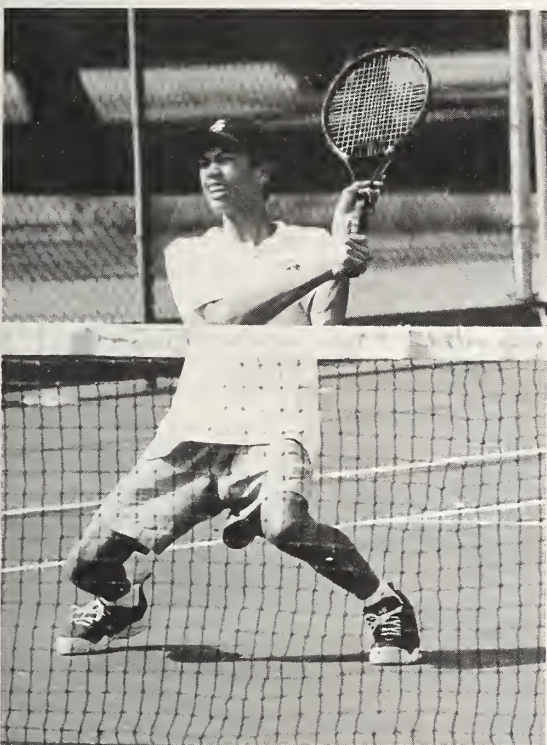

Golf

Tennis

The 1994-95 VC/LFA tennis program was quite successful, culminating in a berth in the Provincial Championships in sunny Abbotsford. This was the team's first appearance in the B.C. Championships since its 1991 silver medal performance. Standout performances were turned by the dynamic duo of Jerome Lee and JP Mahoney, but very encouraging was the Gr. 9 pair of Michael Huynh and Scott Wright who battled tremendously to post an unbeaten record at the Championships. The single/mixed doubles play of Jerome Yang was impressive and his senior year shows much promise. Team members included Allister Flojo and Dan Cueto, and we wish them all the best. The high point of the season was Grant Connell's visit to Vancouver College to speak to the student body and play a little tennis. Grant, who grew up in Vancouver, just recently became the 1995 World Doubles Champion with partner Pat Galbraith.

A sport of self-achievement and will-power, a test of one's endurance, agility, speed, and, most importantly, mind, wrestling is a vigorous sport that requires much practice and concentration. This year, the team more than exceeds that requirement. Led by Coach Anderson, Penn and Joe Yee, the team put together a great year, with seven individuals qualifying for the provincial championships. Since November, the wrestlers have practiced everyday and, with the guidance of the coaches, improved every aspect possible. Of course, all the hard work paid off as the Irish was able to bring back medals and high place finishes in numerous major tournaments. The wrestling season was highlighted by Captain Jamie Boreham's six point throw in the Vancouver Zone Finals. We look forward to even more exciting seasons in the upcoming years. Lastly, the team would like to thank the coaches and administration for their time, devotion and efforts.

Vancouver College Athletics

An Inspiring Finish

Traditionally the athletics program at Vancouver College produces a high quality group of teams to represent their name. For the last three quarters of the century, V.C. has been considered a top ranked team while many other schools have come and gone. This consistency has led the Fighting Irish to gain the same respect of others that is limited to a selection of few organizations or groups. Our athletic program has accomplished many achievements, like the triple crown (winning all three levels of high school football) last year, that no other high school in the province has ever accomplished. When deciding what schools would benefit their athletic careers, several athletes find that the answer lies in a 74 year history embedded with traditions and achievements.

The atmosphere provided to the students at V.C. by the administrators and the staff make the choice easier. Not only do the athletes meet with their coaches on the field and at practice, but they also have the distinction of being in many of their classes. This close relationship between the coaches and the athletes interacts in all aspects of school life, allowing the student athlete to develop himself fully. Although Vancouver College is filled with an abundance of talented athletes, the athletic program could not be successful without the help of the coaches. Every year a number of teachers are willing to sacrifice their own time to be involved in sports through coaching. The countless hours of hard work and dedication deserve a great thanks from all of the students involved in Fighting 'I' athletic teams.

Every June one leaves, having left their athletic accomplishments on a wall to hang amongst the memories of other Fighting Irish Achievers and record setters. Each September a new class of athletes enters the community here at Vancouver College. Next year the **Fighting 'I'** are looking forward to continuing the tradition of excellence over the next few years.

It was a dark, cold day in the land Collegium Vancouveriens when the three elected stood in front of the city and prepared for their journey. Jan Paraiso, Aidan Sullivan and Justin Lam were chosen to go out into the wilderness to search for the elusive Irish Spirit that when brought back would bring new life to the city. Before their departure, the three went to seek the wisdom of the great Mrs. Zelis. In her chambers, Mrs. Zelis was able to conjure up three amulets of wisdom for each of the elected and left them with this warning, "if you are ever in need look up to the clouds and call my name." Justin Lam was given the power of finance, with this power he would be able to manage all the expenses of the trip. The power of socialization was given to Aidan Sullivan which would help in making allies out of enemies along the way. Finally, Jan Paraiso was equipped with the power of organization, he would map out their way and keep them on track. They left on their journey and they trekked for what seemed years and years encountering many trials and meeting many people such as Mr. Corbett, the leader of the sports tribe and a supporter in their quest for the Irish Spirit. The weary travellers were about to give up their search when they were greeted by a great light that radiates from behind the highest peak in the land, Mount Icarus. The three knew that this was their destination, so they began to run up the mountain. Then the call, "Mrs. Zelis" resonated through the clouds as the wanderers realized that they needed help. All of a sudden a group of young men descended from the clouds. "These men will be called the student council and they will help you on your journey," said Mrs. Zelis. The journey continued and the group experienced trails and turbulations as the ascent got steeper and steeper. The three got older and older until one day they realized that they couldn't go on and that they would have to pass the amulets to a new generation. Now the three stand almost at the summit waiting for their replacements, hoping that they will be able to capture the elusive Irish Spirit.

Letterman Association

This year, the Lettermen's Association was under the leadership of Donald Guevarra, Prabhjit Bal, and Rafie Relova. Together with the men at large, Nick Berardi, Jaime Boreham, and Jason Dukowski, they exemplified the spirit of Vancouver College under the watchful eye of Bob Corbett and John Donald.

These fine individuals can be noticed all around the school by the "V's" that they wear on their chest. The men who were chosen to wear these sweaters have dedicated themselves to the school and its everyday activities, therefore acting as a role model for the younger grades to follow. Some of the various activities which the Lettermen's Association has been involved in were the Dinner-Dance Auction, Mother's Christmas Tea Party and School Masses.

It is through their dedication and commitment, that the Lettermen's Association was able to show their support to the school. To the future Lettermen's of Vancouver College, may the Tradition continue to live on through you.

In the beginning, a torch was passed on to a new generation of "road-sense" enforcers. Equipped with pamphlets and mocktails at hand, the crew was guided by their enthusiastic moderator, Mrs. Seto and their fearless student leader Daniel Isaac. Every Thursday the young individuals met, destined to plot out a strategic way to save lives of the innocent and the ignorant.

To promote their noble cause, Vancouver College Counterattack has bombarded the school with purple ribbons, crazy contests and advertised slogans with an attitude. With the spirit of the Fighting Irish, the crew excelled in "counterattacking": drinking & driving, speeding and road *non*-sense. Throughout the year, hundreds have acknowledged and benefitted V.C.C.A.s presence at the Magee C.A. Conference, Homecoming Dance, Mayfair, S.O.C. and numerous complimentary car washes. Those of the crew who are leaving the school this year, hope that the legacy shall keep aflame and that the next generation of brave Irish men continue to counterattack the battle.

Chances are, you haven't heard of us. As a matter of fact, you may not know that we even exist. With the exception of a few grade nines, the Peer Tutoring program is composed entirely of senior school students who dedicate hours of their time to assist their tutees, who range from grade ones to twelves, to get through any difficulties they have in their homework. The program appeared to have left Vancouver College with Ms. Constantin last year. However, one day Erwin Mow, Jeff Lam and Justin Lam approached Mr. Smigel and Mr. DesLauriers with the idea of reviving the Peer Tutoring program. Ever since then, it has been running on high gear. The peer tutors have put the idea of receiving Passport to Education credit at the back of their minds and are entirely focused on helping you! The Peer Tutoring program is a complete team effort because every tutor contributes equally. We take this time to honour all the tutors and tutees who have sacrificed their time after school - they are truly the keys to our program's success.

Environment Club

The members of the Environment Club are a group of hard-working Grade 7 and 8 students. Each week these students are responsible for running the paper recycling program at Vancouver College. During the process of collecting the paper from classroom and office boxes, these students must endure the hardships of accepting treats from the Elementary staff and students, and answering the somewhat confusing questions posed by the Senior school staff and students (who are in class at the time!). Paper collection from the entire school is completed in about 15 minutes once a week. The paper which is collected is broken down to pulp and made into boxes by Crown Packaging. Members of the Environment Club will be visiting Science World, the Vancouver Aquarium and the IMAX theatre during the year.

"The only thing for evil to flourish is for good men to do nothing."

In September of 1994, the Pro-Life Club consisted of only a handful of students. This year the club has grown exponentially. Along with staff members Jim Canil and Nancy Gach, the group has persistently increased the awareness of many Pro-Life issues.

Being in existence for a mere two years, the group has made itself quite busy. In October, the Pro-Life Club reserved a section of the Life Chain not only for Vancouver College's Pro-Life Club but also for Notre Dame High School, Little Flower Academy and St. Patrick's High School's Reverence for Life Groups. Also in October, the members of the club

attended the 1995 Pro-Life Youth Conference in Surrey. Again the Pro-Life Club highlighted the Advent season with its outdoor nativity scene. Also to help the Sisters of Atonment during this giving season, the group erected a Christmas tree which received toys which were then given to children. In February, members again attended a conference. Here they made a presentation in the presence of Pro-Life delegates from all over B.C. The highlight of this eventful year occurred in April as the Pro-Life Clubs of all Lower Mainland Catholic High Schools hosted the first ever Pro-Life Youth Conference.

These "good men" plan to support and promote life in all its stages.

Mandarin Class

國語班

隨著溫哥華之一的華人社區迅速地發展國語已成為了日用的語言。加上去年卑詩省教育局的新例改革後，國語已成為十二班的政府考試科目之一，可作為申報大學第二語言的學分。因此，本校的同學們對新開辦的國語班反應熱烈，有四十餘位同學參加了第九年初班和十一年班的課程。十一年班的同學在二月升到十二年班，而且政府考試的分數也很好。大部份國語班的同學都覺得學習國語比法語更容易，而且學成之後，在華人社會工作會更方便。我們是歡迎外界的同學來就讀的。如果你也有興趣的話，請和校方聯絡。

Since Vancouver's Chinese Community has developed extensively, Mandarin has become a language of daily use for many Chinese people. Last year, the B.C. Ministry of Education announced that Mandarin would become a provincially examinable course. Mandarin now fulfills the second language entrance requirement for B.C.'s universities. V.C. students quickly became excited about the new program. In September, a total of forty students enrolled in the beginner's grade 9 and intermediate grade 11 Mandarin courses. In February, the grade 9 students were promoted to grade 10 and the grade 11 students to grade 12. The grade 12 students have done well on their provincial exams. Most of the Mandarin students have found that learning Mandarin is easier than learning French and that Mandarin will be useful in the community after they graduate. We welcome outside students to join us. If you or your friends are interested, please contact the school.

Job Entry

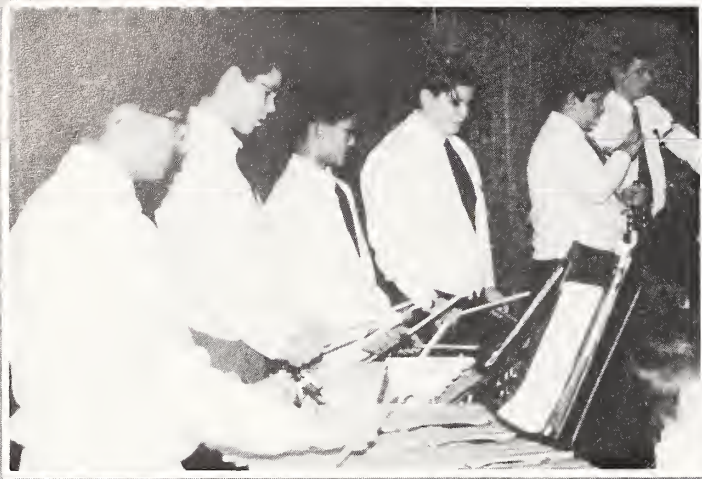

Vancouver College Job Training Program

Program Objectives: Vancouver College has hosted a Job Training project funded by Canada Employment and Immigration since 1986. The program's purpose is to assist unemployed adults in: 1) making a successful transition from school to work; 2) re-entering the workplace with improved, more competitive skills; and 3) gaining confidence in themselves and their skills. Trainees receive instruction in computer skills, career exploration, and software and network systems' support skills; are matched with a host company for on-the-job training; and are assisted in their job search at the conclusion of training. More than 85% of the 400+ individuals completing 3, 6, or 8 month training programs have successfully moved into employment and more productive lives. The 24 students in each project are adults of all ages, backgrounds, and social and ethnic origins, united by the need for solid work skills. The Training Centre looks for businesses who would be interested in hosting a work practicum student (at no cost) during their training, and they work with each business to make a good match and to develop an appropriate and useful training plan. Students even help solve some of the College's immediate computer hardware and software problems during their training.

Vancouver College and the entire community benefit from this program: participants learn the skills needed to earn a living and to take charge of their lives; society gains independent members who can contribute back into the system; and Vancouver College stays true to its mission statement to contribute to the larger community. We are very proud of these results.

VC Band

Senior Stage Band

The newly renovated band room is where the V.C. bands rehearse. The band is made up of many dedicated musicians. The band is led by Mr. Larry Olson, who is in his seventh year at Vancouver College. At V.C. there is the option of taking band from grade 7 to 12. Each year the level of difficulty rises and the skills improve. As young musicians get older they strive to be part of the school's Senior Stage bands. This year the senior stage band will play in the Surrey, West Coast Nanimo and B.C. Interior Kelowna Jazz festivals. The Senior Stage bands have a strong reputation set by previous bands. In 1995 Stage Band One traveled to Banff to play in the Canadian Rocky Mountain Music Festival. Also, Stage Band Two participated in MusicFest Canada by receiving an invitation at last years Surrey Jazz Festival. At each of these festivals V.C. has always been able to impress others because of their attention to details, talents and skill levels of its members. This year with a new daily schedule the Senior Stage Band has had to juggle their practice time. They practice after school for approximately an hour. Led by nine grads the band is an experienced and youthful group. Mr. Olson's experience from being in a band and teaching many has caused the band to mature and compete with some of the best. The band is looking forward to unleashing the many skills which they learned in practice at festivals and concerts. Many students leave and join the Senior Stage band each year causing a sense of excitement. The band program has flourished under the leadership of Mr. Olson, the grad class of '96 would like to thank him for his efforts in making the band program what it is today. Good luck to Mr. Olson and the bands future musical endeavors as they look towards becoming the best.

Vancouver College Parent Association

The Vancouver College Parent Association has a rich history of providing an important venue for parents to socialize, to raise funds for the school and to support the staff, students, administration and fellow parents in a wide range of nonmonetary ways. The mission statement of the VC.P.A. is as follows:

The purpose of the Association is to support and promote a Catholic Education for the students of Vancouver College by:

- a. encouraging participation in school activities by the families of all students;
- b. facilitating cooperation and dialogue with the school community;
- c. raising funds for school needs as they arise;
- d. promoting and assisting with charitable activities outside of the school by which students can put Catholic faith into action.

The following are the twelve P.A. Executive portfolios and the corresponding administrator and parents who currently fill those positions:

- | | |
|--------------------------|---------------------------------|
| 1. Brother Kieran Murphy | Chairperson |
| 2. Bill Cooke | President |
| 3. Agnes Liau | Treasurer |
| 4. Jozi Kolarich | Secretary |
| 5. Deborah Blakeney | Volunteer Coordinator |
| 6. Katherine Filis | Mayfair Convener |
| 7. Laura Virginill | Auction Dinner Convener |
| 8. Kathy Scheideman | Communications |
| 9. Ivy Chin | Social Coordinator |
| 10. Julius Lardizabal | Parent Room Coordinator |
| 11. Jan Englehart | Safety & Emergency Preparedness |
| 12. Jim Harrison | Alumni Liaison |

The 1995-96 Parent Association has been constantly active this school year, both implementing new ideas and continuing the best of the VC. traditions.

Guest speakers Denis Boyd and Al Blesch inspired us to rejuvenate our parenting methods. The P.A. hosted the second annual VC. Administrators' Panel Discussion and an Emergency Preparedness Symposium, the first to be held at VC. Throughout early autumn, every new parent was welcomed warmly into the VC. community at various gracious Welcome parties hosted by the Parent Association. The Grade Eleven parents were treated to an evening of academic requirement information and socializing cohosted by the VC. Administration and the VC. Parents Association.

The P.A. Newsletter has been a well used method of updating and communicating with parents. The P.A. Telephone Tree has been redesigned to be a more effective means of disseminating messages to the parent body.

The Parent Parking Patrol continues for the second year to flourish five days per week, morning and afternoon, effectively keeping our children safe while crossing Cartier.

The traditional Dinner Auction was the best ever this year with large sums raised and good will abounding among parents and staff. The ever popular Mothers' Christmas Coffee Party boasted record attendance and rave reviews. Of course, the now famous Mayfair prove to be as popular with the outside community as with our own VC. family.

A new tradition established by this year's P.A. was the annual Edmund Rice Commemorative Prize of \$1500 made eligible to students commemorating the anniversary of the death of Brother Edmund Rice, founder of the Christian Brothers.

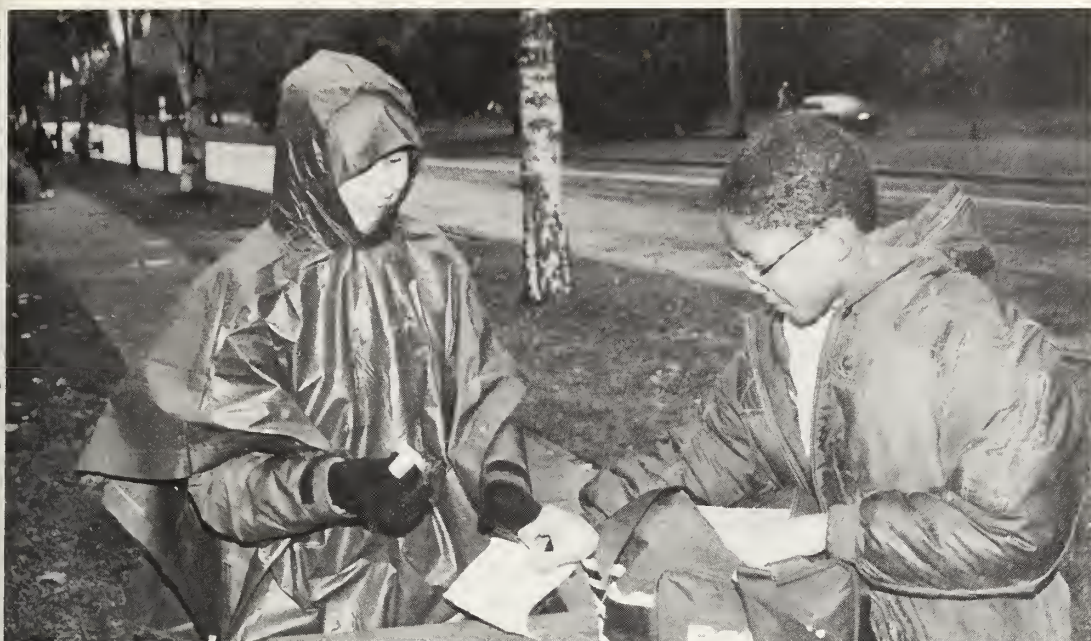

Undoubtedly the most significant focus of this year's energies has been directed at preparing to implement a Parent Participation Program commencing in September, 1996. Countless hours have been spent anticipating and organizing the fine details required to ensure the success of this monumental change in the role and responsibilities of the VC. parents. The efforts will prove worthwhile for all and this year will be known as a significant turning point for the betterment of the school.

NEWSLETTER

Walkathon '96

Vancouver College hosts several events geared towards fund-raising throughout each year; the annual Walk-a-thon being one of the most enduring and trying of all. This year's was no different, except instead of the traditional clear blue skies, the walkers, runners, and bikers were greeted by the torrential rains which had pummeled the Lower Mainland for the past week. Armed with \$1.00 ponchos and really, really big umbrellas, the valiant students of Vancouver College ventured from their classroom sanctuaries out onto the swamped and flooded roads of UBC . . . or the wet and cold concrete of the track. Dodging traffic, searching out temporary shelter from the rain, evading pneumonia and trying, in vain, to get their pictures in the yearbook were some of the challenges each student faced and conquered. Fortunately, the efforts of the students and the Parent's Association volunteers did not go unrewarded. A visit from the hypnotist, computers for the elementary school and a total of \$70 grand were only some of the benefits reaped.

Trip to Asia

Spring break 1995 saw a group of Vancouver College students going for a two week trip to Asia.

Twenty students and two teachers prepared for months and finally left for Tokyo. We stayed with Japanese families in the city of Hamura, made great friends, and had a taste of real home living in Japan. The city of Hamura was a great host and welcomed us very warmly.

We visited Tokyo and experienced the packed trains. We had our picture taken with the Great Buddha at Kamakura. A great cultural moment was a meditation ceremony at a Buddhist temple. The tea ceremony was "different," but fun. The trip took us to Kyoto, the ancient capital of Japan. The ride on the "bullet train" was a treat. In Kyoto, Nara, and Himeji, we had our share of shrines, temples, and castles. Driving through the devastated city Kobe was a "silent" experience.

In Himeji, we were welcomed by the city of Himeji and were treated to a boat ride, all organized by Mr. Matsushita, a VC parent.

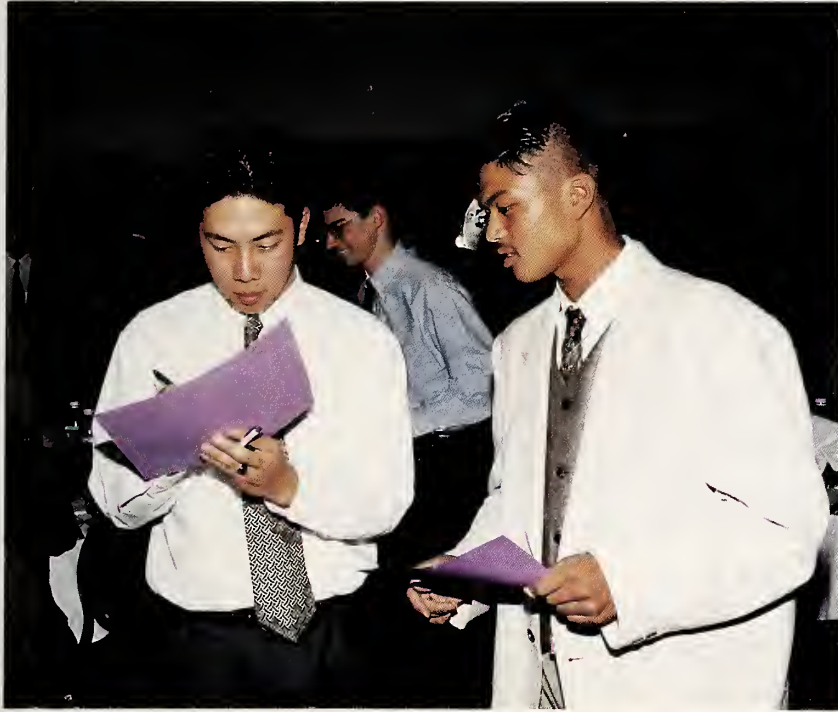

After a sad sayonara to Japan, we were off to the fragrant harbour of Hong Kong. There again, we were made to feel welcome by Mr. and Mrs. Ko, also VC parents.

Hong Kong was another unique Asian experience, but too short. After three days, we returned to Vancouver, richer of many new memories and experiences.

Grads and Dads Dinner

On Oct. 3rd, 1995, the grads and their dads (or fatherly figure) attended the 1st annual Grads 'n Dads banquet. This was an event that was put on by Mr. Sponza, to show the grads that the graduate class is special and that the school would like to show their appreciation now – not only in June.

The dinner took place at the International Plaza Hotel in North Vancouver and was catered by Pesto's. There were various speakers such as Dave Hume, Mr. Sponza, Br. Murphy, the student body president Jan Pariso, Mr. Lattimer, Mr. Jacobson and B.C. Crown Prosecutor Bob Wright. The dinner wasn't only to bring the grads and their dads closer together, but to inform the grads about post secondary institutions and their futures. Mr. Lattimer and Mr. Jacobson gave us a brief talk about entrance into university and Bob Wright gave us an amusing speech on goals for life.

It was a pleasant evening with numerous door prizes to keep the guests entertained. The grads and their dads sat at a table with four other grads and enjoyed a plentiful dinner.

A Dream by Chris Trinidad

We've only begun to dream
Of the trials and tribulations of learning
A dream realized, time flies
We'd soon hear the graduation cries

Of hope, of innocence, of peace
Of reason, of respect, of love
Of friendship, of reality, of responsibility
Of expectations, of happiness, of freedom

Continually realizing the difference between wrong and right
Enduring contemplation's occurrence following an effervescent moonlight
Receiving an excellent mark on an exam, as a measure of our skill
Never reposing our acute minds, our conscience at will

Remembering the pride this institution instilled upon us
Remembering the triumph of a team of athletes, of musicians
Remembering the scholars that granted their wisdom
Enhancing the imagination that lies within us

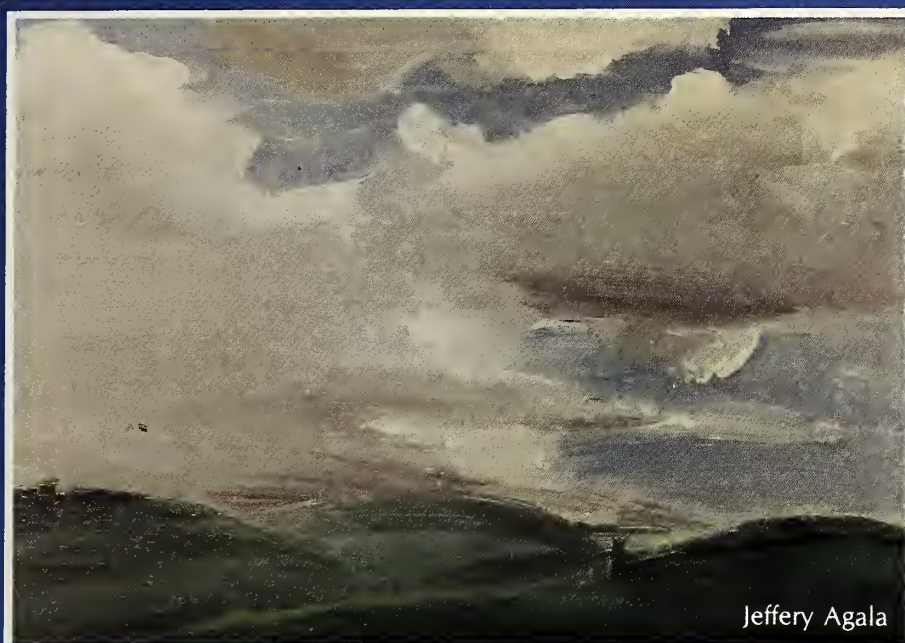

With each passing moment, of each passing day
The lessons we learn, the friends we've made
In an environment that prizes it's mosaic
Treasure our mosaic, treasure our moments, treasure our friends

We are the dreamers
The responsibility of the world lies within our hearts
Velocity equals distance over time
Mine for the answer, search for the truth, and shine!

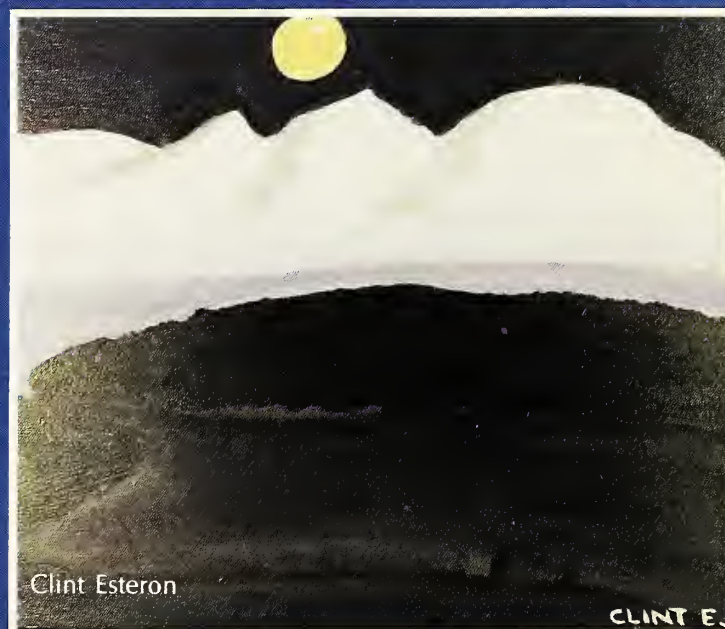

We'd soon hear the graduation cries
A dream realized, time flies
Of the trials and tribulations of learning
We've only begun to dream

Encounter Retreat

Many students have no idea what the Encounter Retreat program is all about. There is a reason for this - the experience is most enjoyed when it is a surprise. The mystery is part of the journey.

This year included Encounters XIV through XVI, organized by Spirituality department head Mr. Terry Shea, Ben Liu, and dedicated senior school students. An enormous amount of time and effort is spent to make the experience meaningful and enjoyable for all the candidates.

One thing is certain about the program. Almost every candidate returns after an extraordinary weekend that made a significant change in his life.

"Thank You to the Parent Association"

May is the time of year when families are brought together as a community through the annual fund-raising affair known as the Mayfair. The atmosphere that surrounds this grand event is lively and full of excitement. The tensions of work are forgotten, as students, parents, and teachers take a break and have fun at the various games.

The entertainment is diverse. One can satisfy his tastebuds by sampling some of the exotic international foods offered at the cafeteria, getting a lick of some cotton candy, or winning a cake off of the Cake Walk. Dunk Tank, Kids Games, and Hot Air Balloon rides are favorites among students and children, while parents try to grab a deal from the clothing sale and silent auction. During all these festivities, our school band performs their number in the courtyard.

When asked what they think of Mayfair, here's what some of the grade elevens said: "I think it's great because it's fund-raising stuff. It raises money for our school . . . helps our school." (Nico Relova); "I think it's great. The band performances help improve the entertainment." (Lawrence Chew); and "C'est tres bon. An air of joyousness hangs in the air . . . The Mayfair is a place where people can have fun, and help out the school at the same time." (Charles Lin)

Hopefully, Mayfair 1996 will turn out just as merry and successful as the previous Mayfairs, and with the early support we are already receiving from the Vancouver College community, the event will surely be tremendous.

VANCOUVER COLLEGE + L.F.A. Proudly Present

S.O.C.

THURSDAY,
MAY 25 '95
7:30 PM

Sharing Our Creativity 1995 was last year's edition of an evening showcasing the talent of students from Vancouver College and Little Flower Academy. The show was well attended by both students and parents.

SOC was organized by Ms. Nancy Herb and Jim Canil, and this year was M.C.'d jointly by Greg Accili and Mike Lattimer.

The ever-popular music of Public House opened the night for the lyrical stylings of BUDS and the rocking music of H-Monkey. Other acts included Blades of Grass, as well as stunning performances by LFA vocalists Rochelle Greenwood, Mirabelle Tinio, and Amalia Townsend.

Balancing Mr. Lattimer's repeated attempts at humour, theatre sports by seniors provided genuine comedy breaks throughout the evening.

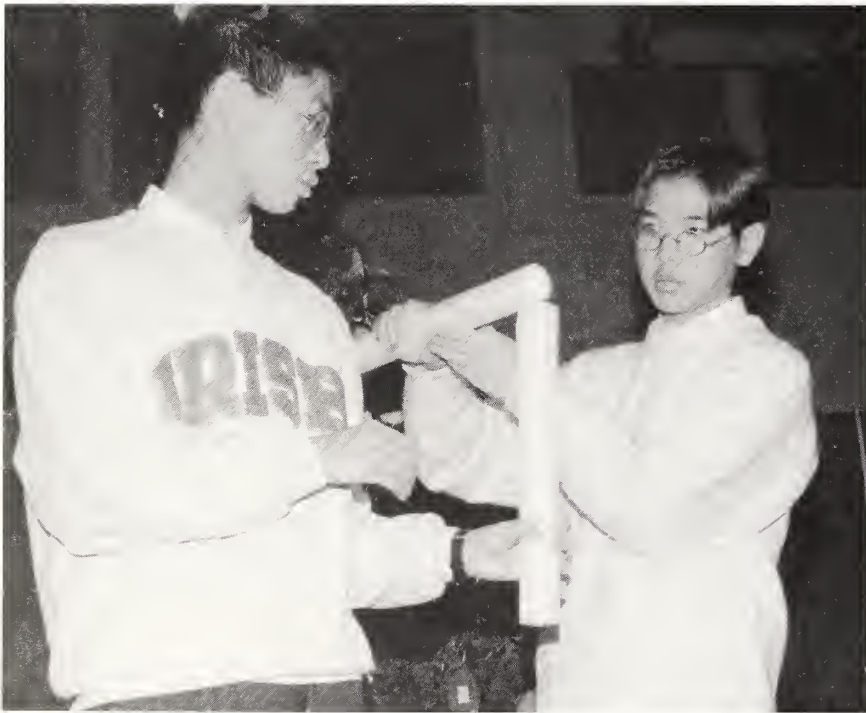

Mrs. Charland set up an extensive art gallery in the cafeteria, displaying the very finest of our artists' paintings and drawings after the show.

Unfortunately, due to deadlines, we are not able to cover SOC 1996 in this year's yearbook.

Hopefully it will be an equally enjoyable night sharing all ranges of creative talents from both school communities.

Mass and Liturgies

From the first whispers of the word "liturgy", we have come to expect a large and formal gathering of the entire Vancouver College community. For our senior school, however, the Ash Wednesday ceremonies were held in classrooms among friends, with candles lit by the same teachers who normally illuminate our future. We may not have had a man of God, but our teachers mastered the task as easily as any priest. Face to face, the ashes were distributed by our own friends, the same friends with whom we had recently hung out with in the mall or V.C. parking lot. Yet the experience was a tremendous inspiration for us all.

Physics Olympics

1996 was a year of tough competition at the annual Physics Olympics. Our fearless captain, Brian Yang, guided team members Joseph Clancy, Sasha Diakow, Tom Doyle, Fred Li, and Charles Lin to stunning (yet unranked) finishes in each of the events. An electric current, so small as to require the finest in university test equipment to detect, was generated from freshly squeezed orange and lime juice in the Electric Produce event. Due to factors that still remain unknown, The Rubber Band Powered Car decided to perform less spectacularly than in the numerous tests performed throughout the previous night. However, the team still enjoyed a pleasant, educational Saturday of friendly competition at UBC. Special thanks to Mr. Molloy for equipment and advice, and best wishes to next year's team.

Speech Club meetings are held weekly in Mrs. Field's classroom where activities are planned, advice is given and practice is taken. This year has been a particularly successful one for the club as four boys entered in the West Vancouver Secondary Speech Competition. They were able to achieve second and third prizes, where Ryan Dass was our overall winner. Eight boys entered the competition at LFA; John Mulholland won first place in the senior category, and the boys won overall with the highest total number of aggregate points.

The Summer Job

The classroom lay motionless and silent. The clammy, humid, tense atmosphere was, in a word unbearable. The circular disc which hung suspended on the wall tormented me with its *allegretto* speed. (tic tic tic) the clock taunted. The calendar stated a single two digit number in the month of June. Now, to the untrained it would have appeared as any other week day. However, to the occupants of this chapparal it was an expiration of a life sentence. The last day of school!

Now the dust settling was audible, brows furrowed, teeth clenched, limbs trembling. Suddenly, as though some predator had leaped from cover, the deafening chimes rang out in their brief hymn of praise. With that, a roar escaped from the class as they poured out of the door. This is how I experienced every last day of school until this year, because this year my anticipation will not be justified. This year I have a summer job!

The grave announcement was spoken to me at dinner one evening. It was a classic scene cut from the *Wonder Years*. A little voice in my head kept crying out, "get a job? Were they serious?" My father elaborated in great detail like a disgruntled drill sergeant. "Six gruelling weeks of back-breaking labour. Enjoy your summer boy!" I cared not for the location or the salary or even the job itself. The only thought which clung to my mind like a parasite was that my summer had just been executed right before my very eyes!

However, that night I experienced a dream that made me realize that taking a summer job was not a choice but a rite. In my vision, I was seated in front of a blank wall. No one was around and all was silent. At first it was boring, then annoying and eventually excruciating. Awoken in a flash, I realized that this nightmare had fortold my possible summer. The only way to be rescued from the fiery pits of boredom was to take the job!

Although I would not be experiencing that rush of adrenaline on the concluding day of school or spend those lazy summer days just lounging about, I would be exposed to my first job. This unexpected awakening awarded me with fresh alternatives. Money for university or better yet a car, a step towards adulthood and most importantly, I would receive my first taste of the real world. It was Lenny Kravitz who said "Welcome to the real world, you better be strong. Never know which way to turn, it might end up wrong."

Japanese Animation Club

The *Japanese Animation Club* is a new club that was just formed this year. Andrew Davis Chan, the founder and first president, proposed the idea to Mr. Trepanier, who also had a similar idea. Mr. Trepanier agreed to be the club's sponsor and quickly got the "wheels turning." Within a week, the club was approved and the first meeting was called.

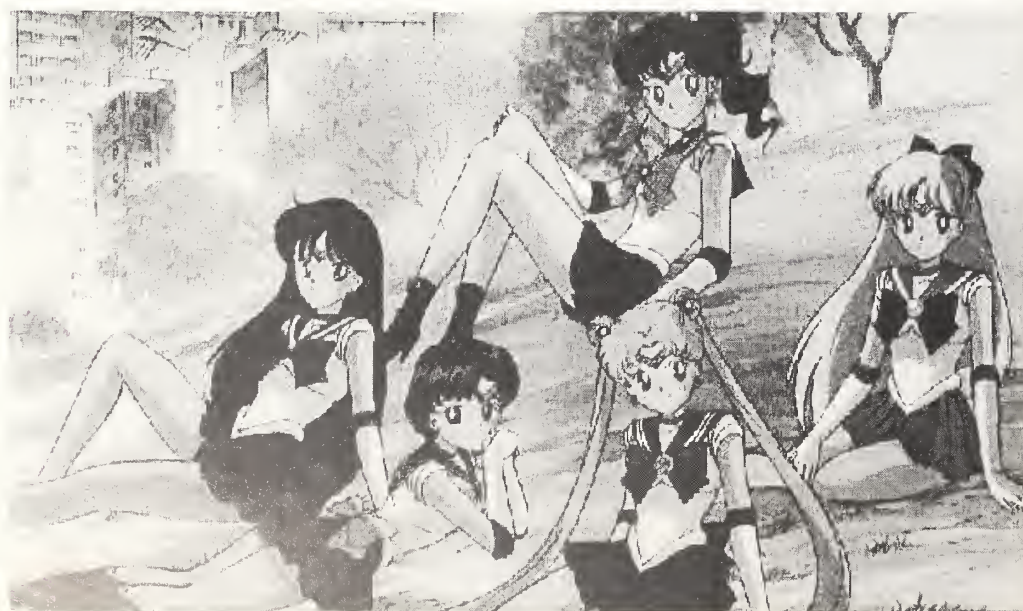

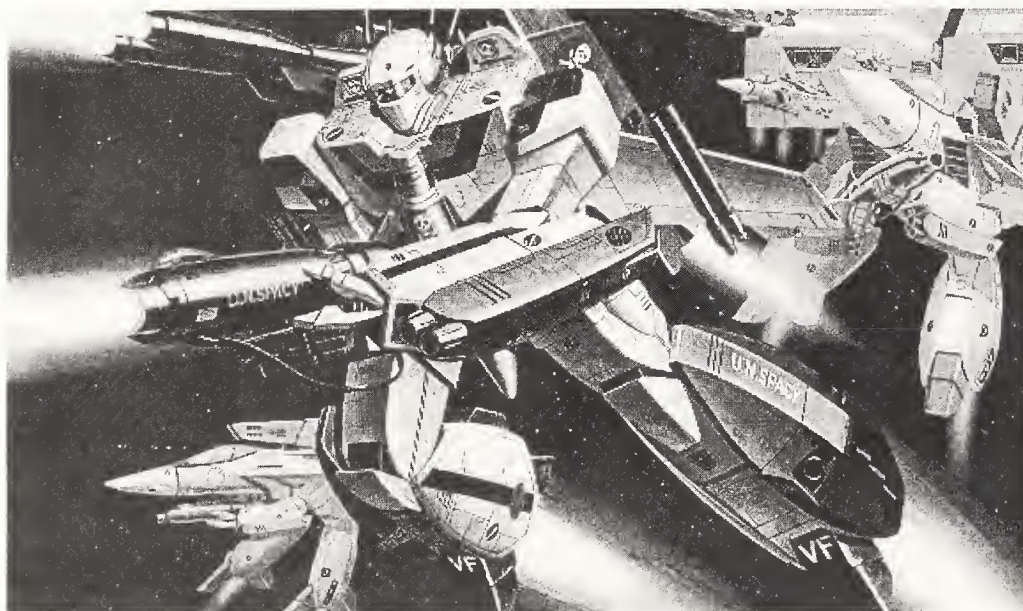

The *Japanese Animation Club* caters to two main interests: animation and Japanese culture. By showing Japanese animation, the students interested in animation can compare different types of Japanese animation to their own work, and gain new insights on how to animate. For the other students, Japanese animation may provide better understanding of the Japanese culture, as many traditions, customs and values are incorporated into these films.

There are two main goals for the *Japanese Animation Club* members: (1) the members will have a greater knowledge and will be able to appreciate different types of animation; thus, improving their own animation, and (2) the members will have a better understanding of the Japanese culture, so that they will have a greater interest in the language and culture; thus, improving their overall education of different cultures and the Japanese language.

PRAYER FOR REVERENCE FOR LIFE

Almighty God, giver of all that is good, we thank You for the precious gift of human life:

- for life in the womb, coming from Your creative power,
- for the life of children, making us glad with their freshness and promise,
- for the life of young people, hoping for a better world,
- for the life of the handicapped and disabled, teaching us humility,
- for the life of the elderly, witnessing to the ageless values of patience and wisdom.

Like Blessed Mary, may we always say "YES" to Your gift. May we defend it and promote it from conception to its natural end. And bring us at last, O Father, to the fullness of eternal life in Jesus Christ Our Lord.
